

## About Mike Holt

### Educator

Mike is nationally recognized as one of America's most knowledgeable electrical trainers. His dynamic and animated teaching style is relaxed, direct and fun. Mike's experiences as an electrician, inspector and contractor help him develop training programs that the electrician understands and enjoys.

### Code Expert

Mike has devoted his career to studying and understanding the National Electrical Code (NEC), the foundation of the electrical industry. Researching the NEC all these years and understanding its background has not only made Mike an expert, but it has also earned him the respect of his peers.

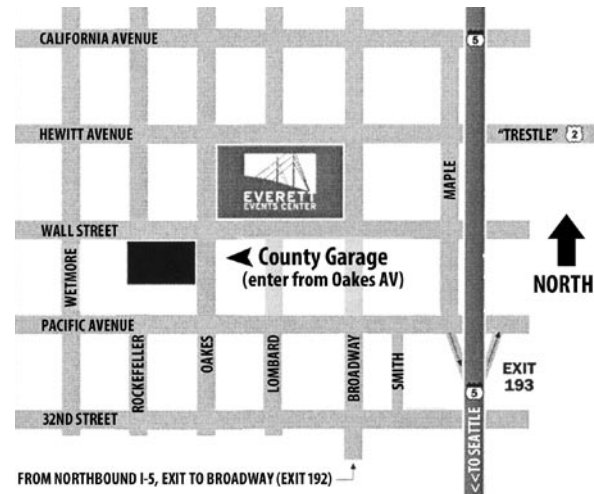

### Author

Mike is a well-respected author of software, books and video training programs. He has mastered the art of explaining the complicated in a simple but direct style. His ability to simplify technical concepts makes him one of America's most sought-after speakers and writers in technical trade. His extensive use of illustration in all of his training programs makes learning fun. His articles have been seen in numerous magazines.

# NEC 2005 Code Update

with  
**Mike Holt**

Washington State Department of  
Labor & Industries Course # WA2004-252

*Wednesday,  
October 6, 2004*

*7:30 AM to 4:00 PM*

at the

Information:  
**425.783.8275**

Toll-free in Western Washington and outside the Everett  
local calling area at 1.877.783.1000, ext. 8275

Sponsored by

**N**early 5,000 changes in the Code were proposed for the NEC, and over 150 of them are critical for your success.

This is your chance for an in-depth examination of the most important changes. You can't afford to be "in the dark" because many of these changes will significantly alter the cost of business! Join Mike and explore the 2005 NEC Code and its effect on you and the electrical industry.

### ***This seminar will:***

- provide an opportunity to participate in an interactive environment;
- stimulate discussion on the technical and practical issues of the upcoming 2005 National Electric Code;
- help clear up confusing and seemingly conflicting or controversial NEC rules.

Here's what others have to say about Mike's seminars:

*Probably the best speaker I've ever heard. Very knowledgeable...*

— Peoria, IL

*The most outstanding code expert. Not a bored person in the audience!*

— St. Paul, MN

*Mike's style of lecturing is engaging, informative and fun. Before the seminar, I thought I would have to fight to stay awake listening all day to the subject of grounding and bonding. Not so!*

— Seattle, WA

### ***Course topics***

This exciting seminar with Mike Holt will translate the very technical language of the NEC into everyday electrician's language that you will understand.

You will learn about:

- ***General installation requirements***
- ***Services, feeders, branch circuits***
- ***Overcurrent protection***
- ***Grounding and bonding***
- ***Wiring methods***
- ***Boxes, disconnects, panels, cords***
- ***GFCI and Arc Fault receptacles***
- ***Motors, transformers, and appliances***
- ***Surge and TVSS protection***

And more!

### ***General information***

- Cost: \$179
- Continental breakfast and lunch are provided.
- Eight (8) industry credit hours toward the renewal of an electrician's license in Washington state.
- Registration and continental breakfast at 7:00 AM.
- Seminar begins at 7:30 AM and concludes at 4:00 PM.
- Complimentary parking vouchers are provided for the Snohomish County Parking Garage.
