# Our Story, Mike Holt Enterprises

Mike's passion for the electrical industry and educating others on the NEC® began in 1972. While studying for a local electrical exam, his inability to find material that was well-written or properly illustrated gave him the idea to create his own materials, and start a school that would be devoted to Electrical Training. In 1974 Mike Holt Enterprises was created with very clear principles of making Electrical Training more effective and providing books that were straightforward and easy to understand. These principles have helped Mike Holt Enterprises become one of the nation's premier electrical publishers, providing books, DVDs, Power Points and Online Training Courses that have changed the way that the NEC and Electrical Training is taught.

39 years later, this standard continues to guide us. Our products are designed for student success and are based on the following principles:

- Text must be easy to understand and it must include clear step-by-step detailed explanations to help simplify difficult concepts.
- All products should be supported by full-color detailed illustrations in order to help students understand difficult topics.
- Instructor Resources should save teachers time and give them tools to help their students learn.

## Our Commitment

*We are devoted to the Electrical Industry and every day we work hard to produce the finest quality books and DVDs in the trade. We genuinely care about providing quality electrical training that will help people take their skills to the next level.*

*Thanks for choosing Mike Holt Enterprises for your Electrical Training needs. We are here to help you every step of the way, and encourage you to call us at 888.632.2633 so we can be a part of your success.*

God Bless,

## MADE IN AMERICA

All Mike Holt products have been designed, produced and printed in the USA.

# The Mike Holt Difference

## Books Designed To Make Learning Easy...

Specialty paper and ink designed to reduce eye strain

Changes to the Code clearly underlined

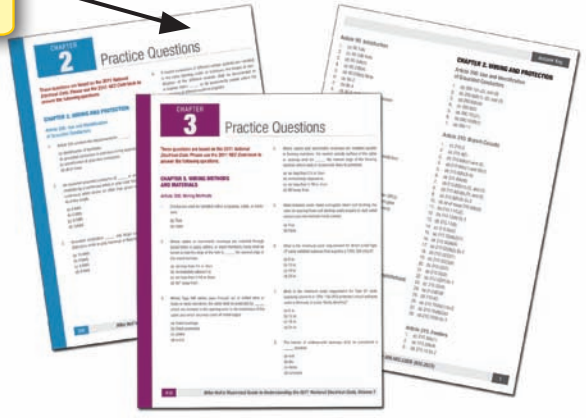

Color-Coded sections make studying easier

Hundreds of full-color detailed illustrations

Author's comments to clarify complex topics

Step-by-step examples

Practice Questions & Answer keys included for all books

## And More!

- Dynamic classroom DVDs with Mike and industry experts provide in-depth analysis
- Practice questions test comprehension
- Detailed Answer Keys
- Online Courses and MP3s

**PLUS INSTRUCTOR RESOURCES**

- Classroom Power Points
- Exam View Quizzes
- Apprenticeship Curriculum
- Online testing
- Free Advertising for Schools

(See page 14 for more info)

# Why Choose Us?

---

## Service

*"True customer service is a very hard attribute to maintain, which seems to be flawless there at Mike Holt Enterprises. Thanks again for a job well done."* – **Chad Perkins**

*"The personal attention you give your customers is the best. Just keep doing what you are doing!!! I have enjoyed working with Mike and his crew for the last 10 years or so and look forward to working with them in the future."* – **Jimmy Jones**

## Quality

*"Keep producing the same quality materials that you are known for. We appreciate your concern for our industry and all you do to make it better, while providing some of the best training materials available. You help make us better qualified, safer and more efficient."* – **Dennis C Malec**

*"Thanks for your excellent courses and customer service. I have been taking courses with Mike Holt for over 10 years. The courses and training have been relevant, well-designed and informative – some of the best I have seen. I would also like to thank the personnel; they are highly customer-oriented and a pleasure to do business with."* – **Gary Yance**

## Success

*"Your material is the industry standard, your service is top notch! I was successful on my first attempt on Michigan's Journeyman and Master Electrician exams using your material. It is very obvious that your organization strives for excellence in teaching the NEC. Thank you very much. My success is due to yours."* – **Daniel Carilli**

*"Great Product + Friendly and Competent Staff = Successful Organization. Keep up the above referenced equation! I'd like you to know how much we appreciate the consistent support and outstanding product delivery (textbooks and presentations) we receive from the folks at Mike Holt Enterprises. The graphics in the textbooks are top-notch quality and the textbook curriculum has a great flow."* – **David Sullivan**

# The Ultimate Training Library

## Your Complete Toolbox for Electrical Training

Its versatility makes this the ideal program to prepare for an exam, train new employees, conduct Code and Safety meetings, or simply stay current with the fundamentals that every working electrical professional needs. This library gives you the edge for your business and your career.

What is included:

### Basic Electrical Theory

- **Basic Electrical Theory** textbook
- *Electrical Fundamentals & Basic Electricity* DVD
- *Electrical Circuits, Systems & Protection* DVD
- *Alternating Current, Motors, Generators & Transformers* DVD

### Bonus Theory

- **Power Quality** textbook
- **Understanding Basic Motor Controls** textbook
- *Basic Motor Controls* two DVDs

### Understanding the National Electrical Code®

- **Understanding the NEC, Volume 1** textbook
- **Understanding the NEC, Volume 2** textbook
- **Understanding the NEC, Volume 1** workbook
- **Grounding vs. Bonding** textbook
- **Limited Energy and Communications Systems** textbook
- *General Requirements, Circuits & Protection* two DVDs
- *Grounding versus Bonding* two DVDs
- *Grounding versus Bonding* MP3
- *Wiring Methods* two DVDs
- *Equipment for General Use* DVD
- *Special Occupancies* DVD
- *Special Equipment* DVD
- *Limited Energy & Communications Systems* DVD
- **Essential Rules of the NEC®** textbook

### Changes to the NEC®

- **Changes to the NEC** textbook
- *Changes to the NEC* two DVDs
- *Changes to the NEC* MP3

### Solar

- **NEC Requirements for Solar Photovoltaic Systems** textbook
- *NEC Requirements for Solar PV Systems* two DVDs

### Exam Preparation/Calculations

- **Exam Preparation** textbook
- **Journeyman Simulated Exam**
- **Master/Contractor Simulated Exam**
- *Raceway & Box Calculations* DVD
- *Conductor Sizing & Protection Calculations* DVD
- *Motor Calculations* DVD
- *Voltage Drop Calculations* DVD
- *Dwelling Unit Calculations* DVD
- *Multifamily Dwelling Calculations* DVD
- *Commercial Calculations* DVD
- *Transformer Calculations* DVD
- **Electrical Formulas with Sample Calculations Handbook**

### Estimating

- **Electrical Estimating** textbook
- *Electrical Estimating* four DVDs

You Save  
**\$2,006**

Items purchased separately, would cost **\$3,601!**

**The Ultimate Training Library** – 16 books, 31 DVDs and 2 MP3 Audios [UTPD] ..... **\$1,595**

# Electrical Exam Preparation

## We can help you pass your exam...

For over 39 years we have been successfully preparing electricians for state and county electrical exams by giving them the knowledge and confidence they need to pass their exams the first time.

## How can our home study programs help you?

- You can study when you want, where you want, and at your own pace.
- You'll get the most comprehensive training system available for Electrical Exam Preparation.
- You'll understand the material faster with the hundreds of full-color, detailed graphics showcased in our books that set the standard for learning.
- You'll gain the confidence you need for your exam by working through the practice questions for each area of your test.
- You will learn from the best in the business. Mike Holt and the panel of experts on his DVDs provide an in-depth review of each topic, and their analysis helps you understand how to apply the information in the real-world.

You can rely on us to be here for you every step of the way. We have been doing this for a very long time, and we know what it takes to pass exams. Whether it's getting you a custom study program, or helping you find information about your particular exam, we are here to help you.

## Florida State Exam Preparation

Our Florida State Exam Preparation program has set the standard for training for over 35 years. This combination program incorporates the best of our home study programs along with our intensive live 6-day course that will prepare you for both the Technical and Business portions of your exam. This program is available for the following Florida state licenses:

- Unlimited
- Alarm
- Limited Energy
- Lighting
- Residential
- Sign
- Utility

**Our instructor John Mills has been leading this course for over 16 years, and here is a sample of what his students say about this program:**

*"The Florida State Exam class was great. I would rate the course a 10. The most important thing I learned was precisely how to prepare for the test including what to expect the testing environment to be like, what the test questions will be like, and how they may ask for answers in different ways. All around John was not just a great instructor but he was also a great guy to spend that much time with. He did a good job of breaking up the monotony of studying with good humor and other insights relevant to the trade."*

– Jonathan McAuley  
Electrical Contractor

*"This course is a 10! John did an excellent job explaining the material and really knows his stuff. The most important thing that I learned was how to look-up and understand the Florida Contractors Manual. He broke it down, so I would know where to look. He really is a great asset for Mike Holt Enterprises! Thanks."*

– Mike Goetz  
Senior Project Manager

## Comprehensive Exam Preparation Library

A complete course designed for your success. In-depth instruction for Theory and Code, with step-by-step instructions for solving electrical calculations. The DVDs are a vital component to learning, and the Practice Questions are key to reinforcing what you learn.

What is included:

### Theory

- **Basic Electrical Theory textbook**
- *Electrical Fundamentals & Basic Electricity DVD*
- *Electrical Circuits, Systems & Protection DVD*
- *Alternating Current, Motors, Generators & Transformers DVD*

### National Electrical Code

- **Understanding the NEC, Volume 1 textbook**
- *General Requirements Circuits & Protection two DVDs*
- *Grounding versus Bonding two DVDs*
- *Wiring Methods two DVDs*
- *Equipment for General Use DVD*
- **Understanding the NEC, Volume 2 textbook**
- *Special Occupancies DVD*
- *Special Equipment DVD*
- *Limited Energy & Communications Systems DVD*

### Calculations

- **Exam Preparation textbook**
- *Raceway & Box Calculations DVD*
- *Conductor Sizing & Protection Calculations DVD*
- *Motor & Air-Conditioning Calculations DVD*
- *Voltage Drop Calculations DVD*
- *Dwelling Unit Calculations DVD*
- ⚡ *Multifamily Dwelling Calculations DVD*
- ⚡ *Commercial Calculations DVD*
- ⚡ *Transformer Calculations DVD*

- **Journeyman Simulated Exam**
- ⚡ **Master/Contractor Simulated Exam**

⚡ **NOTE: These items are only included in the Master/Comprehensive Library**

**Journeyman Comprehensive Library** – 5 books and 18 DVDs [JRCODVD] ..... **\$925** [You Save \$1,134]

⚡ **Master/Comprehensive Library** – 5 books and 21 DVDs [MACODVD] ..... **\$1,025** [You Save \$1,356]

Items purchased separately would cost more!

*"I have used your material and have been successful at passing all 5 master electrician exams in three states. I have to say that your products have helped me grow my business. Your products are truly worth their weight in gold."*

– Joseph Irizarry, Owner/Licensed Master Electrician

## Intermediate Library

- **Electrical Exam Preparation** textbook
- *Raceway & Box Calculations* DVD
- *Conductor Sizing & Protection Calculations* DVD
- *Motor & Air-Conditioning Calculations* DVD
- *Voltage Drop Calculations* DVD
- *Dwelling Unit Calculations* DVD
- ⚡ *Multifamily Dwelling Calculations* DVD
- ⚡ *Commercial Calculations* DVD
- ⚡ *Transformer Calculations* DVD
- **Illustrated Changes to the NEC** textbook
- *Illustrated Changes to the NEC* two DVDs

⚡ **Master/Contractor Library only**

When you know your Code and Theory, but need in-depth instruction on Electrical Calculations, this is your perfect study program. You will receive a review on Theory, over 2,400 NEC practice questions, a step-by-step guide to learning Calculations, plus a book and two DVDs on the Code Changes.

**Journeyman Intermediate Library** – 2 books and 7 DVDs [JRIN] ..... **\$595** [You Save \$147]

⚡ **Master/Contractor Intermediate Library** – 2 books and 10 DVDs [MAIN] ..... **\$695** [You Save \$369]

**Items purchased separately would cost more!**

## Calculations Library

- **Electrical Exam Preparation** textbook
- *Raceway & Box Calculations* DVD
- *Conductor Sizing & Protection Calculations* DVD
- *Motor & Air-Conditioning Calculations* DVD
- *Voltage Drop Calculations* DVD
- *Dwelling Unit Calculations* DVD
- ⚡ *Multifamily Dwelling Calculations* DVD
- ⚡ *Commercial Calculations* DVD
- ⚡ *Transformer Calculations* DVD

⚡ **Master/Contractor Library only**

Everything you need to know about Calculations in one great library.

**Journeyman Calculations Library** – 1 book and 5 DVDs [CADJ] ..... **\$420** [You Save \$104]

⚡ **Master/Contractor Calculations Library** – 1 book and 8 DVDs [CADM] ..... **\$599** [You Save \$242]

**Items purchased separately would cost more!**

*“Your programs work!! I really appreciate the way explanations are clear and complete. I also like the illustrations. Your methods are well thought out and presented clearly - you don’t teach students to “memorize only”. This is the only study material I’ve found that makes it possible to learn outside a classroom/instructor environment.”*

– Frank Heald

## Electrical Exam Preparation

Our best-selling Exam Preparation book has helped tens of thousands of electricians pass their exams. You will love the clear colorful graphics that guide you step-by-step through a Theory review and in-depth Calculation instructions. Also included is a chapter of 2,400 NEC practice questions.

**Pages:** 688  
**Graphics:** 648  
**Practice Questions:** 3,184

**Textbook [EXB] ..... \$59**

*Note: Chapter 5 of this book consists of the Exam Practice Questions workbook.*

## Simulated Exams

Test yourself before you take your official exam. These exams simulate a real test-taking experience, and will help you determine which subjects and areas you really need to study. These exams cover Electrical Theory, The NEC, and Electrical Calculations. Includes a detailed Answer Key.

**Pages:** 58  
**Practice Questions:** 270

**Journeyman Simulated Exam [JX] .. \$20**  
**Master/Contractor Simulated Exam [MX] ..... \$25**

## NEC Exam Practice Questions

The NEC Exam Practice Questions book contains 2,400 questions from the National Electrical Code® to give you practice working with your Code book. There are 10 practice quizzes in Code order, and 10 review quizzes in random order that take you step-by-step through each of the 9 chapters of the NEC. In addition this book contains 7 challenge quizzes and two final exams.

**Pages:** 240  
**Practice Questions:** 2,400

**Practice Questions workbook [PQ] ..... \$40**

*Note: This book is included in the Electrical Exam Preparation textbook.*

## Electrical Exam Preparation Textbook & Simulated Exam

This is a great package to review Theory, get in-depth instruction on Calculations, and test your knowledge with a simulated Exam that has questions on Theory, Code and Calculations.

**Journeyman Simulated Exam & Exam Preparation textbook [EPJX] ..... \$74**  
**Master/Contractor Simulated Exam & Exam Preparation textbook [EPMX] ..... \$79**

## Exam Preparation Book Library

This is a great self-study book program that provides in-depth instruction on Theory, Code, and Calculations.

This library includes:

- **Electrical Exam Preparation textbook**
- **Understanding the NEC, Volume 1 textbook, Articles 90-480**
- **Understanding the NEC, Volume 2 textbook, Articles 500-820**
- **Basic Electrical Theory textbook**
- **Simulated Exam**

**Journeyman Exam Preparation Book Package [JBOOKS] ..... \$199 [You Save \$38]**  
**Master/Contractor Exam Preparation Book Package [MBOOKS] ... \$199 [You Save \$43]**

## Standard Electrical Theory DVD Library

### EASY TO UNDERSTAND

Understanding electrical theory is critical for anyone who works with electricity. The subjects in this textbook will help you understand what electricity is, how it's produced and how it's used. You'll learn everything from a brief study of matter to how to perform basic electrical calculations critical for everyday use. A breakdown of circuits will help you understand complicated circuits for controls, fire alarms and security. In addition, the basics for understanding motors and transformers are clearly explained, and much more...

Includes:

- **Basic Electrical Theory** textbook
- *Electrical Fundamentals and Basic Electricity* DVD
- *Electrical Circuits, Systems, and Protection* DVD
- *Alternating Current, Motors, Generators, and Transformers* DVD

**Purchased separately, these items would cost \$377!**

**You Save \$82**

**Library w/three DVDs [ETLIBD] ..... \$295**

### Individual Theory DVDs

These individual volumes teach you the basics involving matter, electron theory, magnetism, electricity, electromagnetism, uses of electromagnetism, the electrical circuit, math, and electrical formulas. You'll also learn about the most important materials used in the practical application of electricity. These books are extracted from the Basic Electrical Theory textbook and have a corresponding DVD.

**Electrical Fundamentals & Basic Electricity [ETD1] ..... \$109**

**Electrical Circuits, Systems, & Protection [ETD2] ..... \$109**

**Alternating Current, Motors, Generators, & Transformers [ETD3] ..... \$109**

[ETD1]

[ETD2]

[ETD3]

### Basic Electrical Theory

This full-color textbook provides hundreds of illustrated graphics, detailed examples, practice questions, practice exams, summaries and a comprehensive practice final exam.

Pages: 368

Graphics: 326

Practice Questions: 667

**Textbook [ETFC3] ..... \$50**

### Understanding Basic Motor Controls

This textbook explains how to read and understand basic motor control schematics. It helps students understand the equipment represented by the symbols in the schematics, and how motor controls are used in practical applications.

Pages: 272

Graphics: 449

Practice Questions: 304

**Textbook w/two DVDs [MCDVD] ..... \$198**

**Textbook [MCMB] ..... \$40**

### Power Quality

Power quality is increasingly important to facility owners/managers, electrical equipment manufacturers, and end-users of electrical products. Good power quality lowers electricity costs, minimizes maintenance problems with electrical installations in buildings and similar structures, and lets electrical utilization equipment operate properly and efficiently. This book covers basics of electricity, to understanding the impact of wiring errors, NEC violations, as well as Harmonic Currents from nonlinear loads.

Pages: 128

Graphics: 120

Practice Questions: 81

**Textbook w/DVD [ETPQD] ..... \$109**

**Textbook [ETPQ] ..... \$29.50**

**REALLY GET TO KNOW THE NEC!**  
GREAT PROGRAM FOR ENGINEERS AND INSPECTORS

There isn't a better way to learn the Code than Mike's Detailed Code Library. It takes you step-by-step through the NEC, in Code order with detailed illustrations, great practice questions, and in-depth DVD analysis. This library is perfect for engineers, electricians, contractors and electrical inspectors.

**Detailed Code Library – 3 books and 10 DVDs [DECODVD] ..... \$569**

**Detailed Code DVD Library**

- Understanding the National Electrical Code - Volume 1 (NEC Articles 90-480) textbook
- Understanding the National Electrical Code - Volume 2 (NEC Articles 500-820) textbook
- NEC Exam Practice Questions workbook
- General Requirements two DVDs (NEC Articles 90-240)
- Grounding versus Bonding two DVDs (NEC Article 250)
- Wiring Methods two DVDs (NEC Articles 300-392)
- Equipment for General Use DVD (NEC Articles 400-450)
- Special Occupancies DVD (NEC Articles 500-590)
- Special Equipment DVD (NEC Articles 600-702)
- Limited Energy and Communications Systems DVD (NEC Articles 725-820)

**You Save \$609**

**Items purchased separately, would cost \$1,178!**

**Understanding the NEC Textbooks**

**Understanding The National Electrical Code - Volume 1**

(NEC ARTICLES 90-480)  
Pages: 576  
Graphics: 1,111  
Practice Questions: 426  
Workbook Practice Questions: Over 1,300

**Textbook [UND1] ..... \$59**  
**Workbook [UN1WB] ..... \$30**

**Understanding The National Electrical Code - Volume 2**

(NEC ARTICLES 500-820)  
Pages: 368  
Graphics: 459  
Practice Questions: 888

**Textbook [UND2] ..... \$49**

For a comprehensive education on the Code, the Understanding the National Electrical Code textbooks are a great foundation. The Code can be complicated and no other textbook takes you step-by-step through those articles than Mike's authoritative Understanding the National Electrical Code textbooks. These books set the standard in NEC education and are used throughout the country by individuals who want to understand the Code.

**Understanding the NEC Combo**

Purchase the Understanding the National Electrical Code Volumes 1 & 2 together, or with the Practice Questions book to SAVE!

**UNEC 1 & 2 plus Exam Practice Questions textbooks [UND3] ..... \$130**

**UNEC 1 & 2 Textbooks [UND12] ..... \$98**

*"I think you have the best book on the market to learn and teach the NEC code by. I like the decision to print the document in two volumes to fit a first semester course better. Extensive use (and availability to the instructor) of graphics helps to obtain and maintain class participation. The various tests also help the student and the instructor in confirming and documenting that learning occurred."*

– L. W. Brittan, Instructor, Texas A&M University

## Looking to understand a specific area of the Code? Choose one of Mike's Code-specific DVD sets

### General Requirements, Circuits and Protection DVDs\*

(ARTICLES 90-240)

Covers electrical installations such as splices, terminals, working space, interruption rating, mechanical execution of work access, and guarding. Also the use and identification of the grounded (neutral) conductor and branch circuits, such as circuit rating, location of receptacles, switches and lights, branch circuits, feeders, outside wiring and services, conductor sizing and protection, equipment and disconnection means, overcurrent protection general rules, location, and enclosures.

**Book w/two DVDs [NCDVD1] ... \$198**

### Grounding vs. Bonding DVDs

Grounding is the most important and least understood Article in the NEC. This program gives you an excellent working knowledge of Article 250. Learn the purpose of grounding, its operation and its impact on electromagnetic fields, system grounding vs. circuit grounding, location of grounding connection, enclosure grounding, and much more.

**Textbook w/two DVDs [NCDVD2] ..... \$198**  
**Textbook [NCT2]..... \$42**  
**MP3 Audio [GBMP] ..... \$30**

### Wiring Methods and Materials DVDs\*

(ARTICLES 300 - 392)

Covers wiring methods, temporary wiring, conductor properties such as circular mils, insulation, ampacity and overcurrent protection, and Articles which contain the specific requirements for the installation of cables. Also covered are raceways, outlet boxes, junction boxes, pull boxes, and other enclosures such as cabinets, cutout boxes, switchboards, and panel boards.

**Book w/two DVDs [NCDVD3] ... \$198**

### Equipment for General Use DVD\*

(ARTICLES 400-450)

Explains the general NEC rules that apply to appliances, electric space heating, motors, air-conditioning and transformers such as disconnects, conductor sizing, over current, over-load sizing, and much more.

**Book w/DVD [NCDVD4] ..... \$109**

### Special Occupancies DVD\*

(ARTICLES 500-590)

Understand the different classes, divisions, and groups. Learn requirements for motor fuel dispensing facilities, health care facilities, and more.

**Book w/DVD [NCDVD5] ..... \$109**

### Special Equipment DVD\*

(ARTICLES 600-702)

Subjects include signs, manufactured wiring systems, audio signal processing, information technology equipment, fuel cell systems, and more.

**Book w/DVD [NCDVD6] ..... \$109**

### Limited Energy and Communications Systems DVD

This textbook covers the requirements for wiring for control, signal and communications systems that Mike considers critically important in Articles 90-820: purpose of the NEC, wiring methods, circuit requirements, fire alarm systems, optical fiber cables & raceways, communications circuits, radio and television.

**Pages: 144**  
**Graphics: 198**  
**Practice Questions: 302**

**Textbook w/DVD [LED] ..... \$149**  
**Textbook [LE] ..... \$49**

### Essential Rules of the NEC

This book was written by Mike Holt to help the electrical professional understand the most important Safety Rules contained in the NEC. As you read, digest the importance of each rule, and answer the almost 400 practice questions. You'll become an expert on what really matters as it relates to electrical safety.

**Pages: 256**  
**Graphics: 464**  
**Practice Questions: 385**

**Textbook [NEC101] ..... \$40**

\* The books in these items are sections extracted from Mike's Understanding the National Electrical Code textbooks.

## Code Change Library

Get up to speed on the most essential 2011 NEC changes quickly. The book is well organized, easy to follow, and loaded with full-color illustrations that bring the material to life. The DVDs bring together a group of experts from the field to discuss the changes and how they apply in the real world. The online program allows you to test your skills, and the MP3 download is a great way to learn the changes while you are on the road.

The Library includes:

- **Changes to the NEC textbook**
- *Illustrated Changes to the NEC* two DVDs
- *Changes to the NEC* MP3
- **NEC® Tabs**
- 16-Hour Online Code Change Program

**You Save**  
**\$152**

**Items purchased separately, would cost \$421!**

**Code Change Library** – 1 book, 2 DVDs, NEC® Tabs and MP3 Audio [CCLIBD] ..... **\$269**

**Individually Priced:**

**Changes to the NEC Textbook with two DVDs** [CCDVD] ..... **\$198**  
**16-Hour Online Code Change Program** [CCOLP12] ..... **\$178**  
**Changes to the NEC Textbook** [BK] ..... **\$49**  
**MP3** [CCMP] ..... **\$30**  
**NEC® Tabs** [TB] ..... **\$15**

## Code Books

**Handbook** [HB] ..... **\$165.50**  
**Spiral-bound** [SB] ..... **\$93.00**  
**Paperback** [PB] ..... **\$89.50**

## NEC® Tabs

**2011 NEC Tabs** [TB] ..... **\$15**  
**2005/2008 NEC Tabs** [TABS] ..... **\$12**

## NEC Deluxe Package

**You save \$49.50 – PLUS free shipping**

This special package includes the 2011 NEC Code Book, NEC tabs, and our Illustrated Changes to the NEC Textbook with two DVDs.

**w/Spiral Bound Code Book** [NECDSP] **\$256.25**  
**w/Soft Bound Code Book** [NECD] ..... **\$252.75**

*Non-Mike Holt products cannot be discounted.*

If you are looking to take an upcoming NABCEP exam and have met all of the requirements to sit for the exam then this study program is perfect for you. This 4-part program includes materials written from some of the top authorities on Solar and the National Electrical Code.

**NABCEP Exam Preparation Home Study Package [NABCEP]..... \$275**

**You Save  
\$113**

**Items purchased  
separately, would  
cost \$408!**

## Understanding NEC Requirements for Solar Photovoltaic Systems

Solar Power is relatively new to many in the electrical industry and this expanding and exciting industry has created many NEC challenges for the designer, contractor, installer, inspector, and instructor. As the market for Solar Photovoltaic systems continues to grow, the rules governing their installations continue to evolve, but don't be intimidated; Mike's textbook will give you an edge because of the extra effort put forth to make the rules clear and explain their applications.

**Pages:** 368  
**Graphics:** 503  
**Practice Questions:** 670

**Solar PV DVD Program [SOLDVD] ..... \$198**  
Includes: 1 book and two DVDs  
**Solar PV Textbook [SOLB] ..... \$48**  
**MP3 [SOLMP] ..... \$30**

## NABCEP Exam Preparation Library

- **Solar Photovoltaic Systems Textbook and CD** by leading Solar Authority Jim Dunlop
- **Understanding NEC Requirements for Solar Photovoltaic Systems, Based on the 2011 NEC® textbook**
- *NEC Requirements for Solar PV Systems two DVDs*
- Solar Construction Safety PDF written by OSEIA
- Field Inspection Guidelines PDF developed for IREC by Solar Engineering Consultant Bill Brooks

## Jim Dunlop's Photovoltaic Systems Textbook - 3rd Edition

Photovoltaic Systems is a comprehensive guide to the fundamentals and principles involved in the planning, design and installation of solar photovoltaic (PV) systems. It covers the key steps in project development and specific requirements for installations and code compliance. The content is strongly tied to the task analysis used by the North American Board of Certified Energy Practitioners (NABCEP) PV installer certification program, and is becoming the industry standard for training and a useful reference for a diversity of industry professionals. It is used extensively throughout electrical apprenticeship programs, community colleges and vocational training programs around the country.

**Photovoltaic Systems textbook [JDSPB] ..... \$110**

## Sharpen Your Business Skills

Mike Holt's interest in business began in the early 70's when he opened a successful contracting firm. With the skills he gained contracting, he launched a school dedicated to teaching electrical contractors. Mike went on to start a software company that specialized in estimating software and eventually brought all of his businesses under the umbrella of Mike Holt Enterprises. This experience in several different types of companies has given him a broad perspective on building a profitable business that is committed to its customers and to quality.

### Business Management Skills DVD

The field of Business Management encompasses many activities that influence the profitability of your company either directly or indirectly. This workbook was designed to assist you in improving the skills that will help you build and manage your business more efficiently. You'll learn how to create a customized plan to move your business to the next level. Subjects include Business Management, Financial Management, Job Management, and Labor Management.

This workbook has an Annex that includes tools to support your business efforts and to keep you focused on your goals:

- Business Model
- Business Development Worksheet
- Daily Log Example
- Organizational Chart Example
- Customer Survey Example
- Employee Survey Example
- Proposal for Electrical Work Examples

**Pages:** 272

**Workbook w/DVD [BMSKD] ..... \$109**  
**Workbook [BMBK] ..... \$50**

### Estimating Deluxe DVD Package

Proper estimating is the key to successful profitable business. Electrical contractors must know how to estimate to determine the job's selling price, and to properly manage each job profitably. Mike's book and DVD series will teach you both the estimating and the bid process. Mike and his team of experts explain how to determine your costs (time, labor, materials, etc.) so you can do the job correctly and profitably, and even know when it's wise to not bid on a job.

The package includes:

**Electrical Estimating Textbook** and four DVDs

- *Disc 1: Estimating vs. Bidding, All About Estimating, Understanding Labor Units*
- *Disc 2: The Estimating Process, Determining Break-Even, The Bid Process, Unit Pricing*
- *Disc 3: The Practical Application – How the whole process works, and how to get it done*
- *Disc 4: About Estimating Software*

**Pages:** 256

**Practice Questions:** 328

**Textbook and four DVDs [EST2DVD] ..... \$299**  
**Textbook [EST2B] ..... \$62**

*"Your estimating home study took the guesswork out of my bids, and I don't have to feel uneasy about what I'm doing. By operating in a professional manner I have discovered that there is security in knowing that I'll be around in a few years, and not scratching my head wondering why I didn't make a profit."*

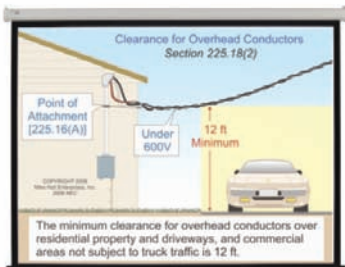

– Charles Walters

# 100% Commitment to Schools and Instructors

Our company supports schools and instructors in every way we can. We do this because we care. We care about the Electrical Industry and we care about providing the best training for individuals that are learning this profession. We work hard to provide tools for instructors to make their lives easier so that they can do what they do best, teach the next generation of Electrical Professionals.

Online Training

PowerPoints

## Here are some of the ways that we can support your program:

**Classroom Power Points** – This unparalleled support tool provides you with the content and images from our books and helps reduce planning time.

**Free Online Testing Service** – This program gives you the ability to test your students on the material that they are learning in an easy to use online format.

**Free Exam View Questions** – Available for all of our books.

**Desk Copies** – Order a free copy of any of our titles for review.

**Curriculum Support** – Whether you need help with curriculum development or you want to see how our books support your current curriculum, we can help you.

**Website Resources** – Check out our “Instructor Forum” and free instructor resources on our website.

**Free Advertising** – We promote our schools with a feature on our website called “Find a School”. This searchable database is an excellent way for new students to discover your school.

**Instructor Training** – Mike Holt’s “Becoming a Great Instructor” class can help you take your teaching skills to the next level.

**Great Value** – We keep our costs down so that we can provide high quality materials that are reasonable for schools and students. Our volume discount provides some of the best pricing in the industry.

**And So Much More!** Each day we find new ways to help our schools grow, new ways to improve our products and every day, we are committed to serving you.

*“Your continued support by creating leading edge materials is appreciated. This industry has always been one where we are taught and then are teachers. Mike Holt’s dedication to this process is unparalleled.”*

– Scott Nutting, Instructor

*“Your books are of the best I have seen on the NEC. The illustrations are great, and I especially like the additional ones in the PowerPoint slides which show the Code violations. They enable our Code classes to be the best possible, as teaching the Code without them, would be a boring, dry affair. I have also adopted and use the Electrical Exam Preparation for our Code II class to cover service calculations, along with the Understanding the NEC Vol. 2. I’m most pleased with the professionalism in which we are always treated regarding orders.”*

– Michael Sims

*What pleased me most was the professional, timely response to my numerous questions and fast reporting of my CEUs to the correct Agencies. Continue with the excellent educational material and the courteous service! The course material was covered so thoroughly, that I think I could teach the material from what I learned - it was that well covered. Thanks."*

– Jerry R. King

# Final Thoughts

The Electrical Industry is a community of incredible professionals working hard to provide safe electrical installations throughout the world. We are proud to be a part of this industry, and happy to be a part of your story.

Our mission is to change the lives of electrical professionals through our training products and resources, and we would love to hear how our products have helped you.

Please email us at [story@mikeholt.com](mailto:story@mikeholt.com) to share your story.

## Stories from the field...

*"After 28 years in the trade, and a Class 2 unrestricted licensed individual, in GA for 20 years, I began new employment in 2010, with an electrical contractor who wanted me to obtain 7 out of state licenses within one year. With the use of Mike's materials and endless hours of devotion, I have now successfully tested and passed 20 out of 20 state exams in just 14 months. Currently the list of states desired by my employer has grown to 33 states. **I feel quite confident with the help of Mike's materials I am going to succeed.** Thank you Mike and team, for all of your hard work. God Bless all of you." – Kevin Ryan*

***"I love the way Mike breaks down the code and the pictures in the book.** I know Mike is a busy man.... But you have to tell him for me that I passed my Masters on my first try. I'm a single father with four boys I tried so hard for them. I don't have much in this world except my boys and my Masters. :) Thanks so much Mike for all your hard work to create your books to inform us in the electrical Industry." – Danein Vazquez*
