

Snapz Electrical Exam Prep 2011 study program

Snapz Electrical Exam Prep study program will help you prepare for and pass your 2011 NEC license exam. Snapz Electrical Exam Prep quickly diagnoses your weak areas and concentrates your study time on only those areas.

Use the program's TEST MODE to find out what you already know...and what you don't. Then use STUDY MODE to drill down on only the areas where you need improvement.

Test Mode:

Tests are timed and graded, and your results are analyzed for areas for improvement. Test questions are randomized each time so you can practice over and over. When a test is completed you can review your results in detail. You can see every question you got right, every question you got wrong, and why.

Study Mode:

In Study mode you get unlimited time to take tests. The program also gives you a hint when you get stuck and shows the step-by-step solution to every question. The rationale for the answer to every question is explained in detail.

Complete and Easy to Use:

SNAPZ Electrical Exam Prep is very easy and versatile to use. With a click of the mouse, you can skip a question, advance to the next unanswered question, flag a question for later reference and more. And the easy-to-read on-screen displays tell you at a glance exactly what your current test status is. You can even save your work and return later to exactly where you left off.

1. Includes study material for BOTH Master AND Journeyman exams in one program.
2. Covers all tested areas of the 2011 NEC completely including Definitions, Reference questions, Calculations -- and more.
3. Includes calculations for raceways, boxes, conductor sizing, dwelling units, commercial, delta/delta and delta/wye transformers -- and more.
4. Sample practice tests are timed and graded, and your results are analyzed for areas for improvement.
5. Step-by-step solutions to every question with the reasoning for every answer explained in detail.
6. Tests are patterned after all major testing agencies exams (PSI, Exuperior, Block, Prometric, Pearson Vue ... and more).
