Introduction .....	xv
About This Textbook.....	xvii
How to Use the <i>National Electrical Code</i> .....	xix
About the Author.....	xxii
About the Graphic Illustrator .....	xxiii
Mike Holt Enterprises Team.....	xxiv

<b>ARTICLE 90—INTRODUCTION TO THE NATIONAL ELECTRICAL CODE .....</b>	<b>1</b>
90.1 Purpose of the <i>NEC</i> .....	1
90.2 Scope of the <i>NEC</i> .....	2
90.3 <i>Code Arrangement</i> .....	4
90.4 Enforcement .....	5
90.5 Mandatory Requirements and Explanatory Material .....	6
90.6 Formal Interpretations.....	7
90.7 Examination of Equipment for Product Safety.....	7
90.9 Units of Measurement.....	7
<b>Article 90. Introduction—Practice Questions .....</b>	<b>8</b>

<b>CHAPTER 1—GENERAL .....</b>	<b>11</b>
<b>ARTICLE 100—DEFINITIONS .....</b>	<b>13</b>
Definitions .....	13
<b>ARTICLE 110—REQUIREMENTS FOR ELECTRICAL INSTALLATIONS .....</b>	<b>41</b>
Part I. General Requirements.....	41
110.1 Scope .....	41
110.2 Approval of Conductors and Equipment.....	41
110.3 Examination, Identification, Installation, and Use of Equipment .....	41
110.4 Voltages.....	42
110.5 Copper Conductors .....	42
110.6 Conductor Sizes.....	42
110.7 Wiring Integrity .....	43
110.8 Suitable Wiring Methods .....	43
110.9 Interrupting Protection Rating .....	43
110.10 Circuit Impedance, Short-Circuit Current Rating, and Other Characteristics .....	45
110.11 Deteriorating Agents .....	45
110.12 Mechanical Execution of Work .....	46
110.13 Mounting and Cooling of Equipment.....	46

110.14 Conductor Termination and Splicing .....	46
110.15 High-Leg Conductor Identification.....	51
110.16 Arc-Flash Hazard Warning.....	52
110.21 Manufacturer's Markings .....	52
110.22 Identification of Disconnecting Means.....	52
110.24 Available Fault Current .....	52
<b>Part II. 600V, Nominal, or Less .....</b>	<b>53</b>
110.26 Spaces About Electrical Equipment .....	53
110.27 Guarding.....	59
110.28 Enclosure Types .....	59
<b>Chapter 1. General—Practice Questions .....</b>	<b>60</b>

## CHAPTER 2—WIRING AND PROTECTION .....

<b>ARTICLE 200—USE AND IDENTIFICATION OF GROUNDED CONDUCTORS .....</b>	<b>67</b>
Part I. General .....	68
200.1 Scope .....	68
200.2 General.....	68
200.4 Grounded Conductors .....	68
200.6 Grounded Conductor Identification .....	68
200.7 Use of White or Gray Color .....	70
200.9 Terminal Identification.....	71
200.10 Identification of Terminals .....	71
200.11 Polarity .....	71

## ARTICLE 210—BRANCH CIRCUITS .....

Part I. General Provisions .....	74
210.1 Scope .....	74
210.2 Other Articles .....	74
210.3 Branch-Circuit Rating .....	74
210.4 Multiwire Branch Circuits.....	74
210.5 Identification for Branch Circuits .....	78
210.6 Branch-Circuit Voltage Limitations .....	78
210.7 Multiple Branch Circuits.....	79
210.8 GFCI Protection .....	79
210.11 Branch Circuits Required .....	85
210.12 Arc-Fault Circuit-Interrupter Protection for Dwelling Units .....	87
210.18 Guest Rooms and Guest Suites .....	88
<b>Part II. Branch-Circuit Ratings .....</b>	<b>88</b>
210.19 Conductor Sizing.....	88
210.20 Overcurrent Protection .....	90

## Table of Contents

210.21 Outlet Device Rating .....	91
210.23 Permissible Loads.....	92
210.25 Branch Circuits in Buildings with Multiple Occupancies.....	93
<b>Part III. Required Outlets.....</b>	<b>93</b>
210.50 General.....	93
210.52 Dwelling Unit Receptacle Outlet Requirements .....	93
210.60 Receptacles in Guest Rooms, Guest Suites, Dormitories, and Similar Occupancies .....	101
210.62 Show Windows .....	101
210.63 Heating, Air-Conditioning, and Refrigeration (HACR) Equipment .....	102
210.70 Lighting Outlet Requirements.....	103
<b>ARTICLE 215—FEEDERS .....</b>	<b>107</b>
215.1 Scope .....	107
215.2 Minimum Rating .....	107
215.3 Overcurrent Protection Sizing.....	109
215.4 Feeders with Common Neutral Conductor .....	109
215.6 Equipment Grounding Conductor.....	109
215.10 Ground-Fault Protection of Equipment.....	110
215.12 Conductor Identification .....	110
<b>ARTICLE 220—BRANCH-CIRCUIT, FEEDER, AND SERVICE CALCULATIONS .....</b>	<b>111</b>
<b>Part I. General .....</b>	<b>111</b>
220.1 Scope .....	111
220.3 Application of Other Articles .....	111
220.5 Calculations.....	111
<b>Part II. Branch-Circuit Load Calculations .....</b>	<b>112</b>
220.12 General Lighting .....	112
220.14 Other Loads—All Occupancies .....	113
220.18 Maximum Load on a Branch Circuit .....	116
<b>Part III. Feeder and Service Calculations .....</b>	<b>118</b>
220.40 General.....	118
220.42 General Lighting Demand Factors .....	118
220.43 Commercial—Show Window and Track Lighting Load .....	118
220.44 Other than Dwelling Unit—Receptacle Load.....	119
220.50 Motor Load .....	120
220.51 Fixed Electric Space-Heating Load.....	120
220.52 Dwelling Unit—Small-Appliance and Laundry Load .....	120
220.53 Dwelling Unit—Appliance Load.....	120
220.54 Dwelling Unit—Electric Clothes Dryer Load .....	121
220.55 Dwelling Unit—Electric Ranges and Cooking Appliances...	122
220.56 Commercial—Kitchen Equipment Load.....	124
220.60 Noncoincident Loads .....	124
220.61 Feeder/Service Neutral Unbalanced Load.....	124
<b>Part IV. Optional Calculations for Computing Feeder and Service Loads .....</b>	<b>127</b>
220.82 Dwelling Unit—Optional Load Calculation.....	127
220.83 Existing Dwelling Unit Calculations.....	128
220.84 Multifamily—Optional Load Calculation .....	129
220.85 Optional Calculation—Two Dwelling Units.....	130
220.87 Determining Existing Loads.....	130
<b>ARTICLE 225—OUTSIDE BRANCH CIRCUITS AND FEEDERS .....</b>	<b>131</b>
<b>Part I. General .....</b>	<b>131</b>
225.1 Scope .....	131
225.2 Other Articles .....	132
225.6 Minimum Size of Conductors .....	132
225.7 Luminaires Installed Outdoors.....	133
225.15 Supports Over Buildings .....	133
225.16 Attachment .....	133
225.17 Masts as Support.....	133
225.18 Clearance for Overhead Conductors .....	133
225.19 Clearances from Buildings .....	134
225.22 Raceways on Exterior Surfaces of Buildings or Other Structures.....	135
225.26 Trees for Conductor Support.....	136
225.27 Raceway Seal .....	136
<b>Part II. Buildings or Other Structures Supplied by a Feeder(s) or Branch Circuit(s) .....</b>	<b>136</b>
225.30 Number of Supplies .....	136
225.31 Disconnecting Means.....	136
225.32 Disconnect Location .....	136
225.33 Maximum Number of Disconnects .....	138
225.34 Grouping of Disconnects .....	138
225.35 Access to Occupants.....	138
225.36 Identified as Suitable for Service Equipment .....	138
225.37 Identification of Multiple Feeders .....	138
225.38 Disconnect Construction .....	138
225.39 Rating of Disconnecting Means.....	138
<b>ARTICLE 230—SERVICES .....</b>	<b>140</b>
<b>Part I. General .....</b>	<b>141</b>
230.1 Scope .....	141
230.2 Number of Services .....	141
230.3 Not to Pass Through a Building/Structure .....	142
230.6 Conductors Considered Outside a Building .....	142
230.7 Service Conductors Separate from Other Conductors .....	142
230.8 Raceway Seals .....	143
230.9 Clearance from Building Openings .....	143
230.10 Vegetation as Support.....	144
<b>Part II. Overhead Service Conductors .....</b>	<b>144</b>
230.23 Overhead Service Conductor Size and Rating.....	144
230.24 Vertical Clearance for Overhead Service Conductors .....	145
230.26 Point of Attachment .....	146
230.27 Means of Attachment.....	146
230.28 Service Masts Used as Supports .....	146

<b>Part III. Underground Service Conductors .....</b>	147
230.31 Underground Service Conductor Size and Rating.....	147
230.32 Protection Against Damage .....	147
<b>Part IV. Service-Entrance Conductors.....</b>	148
230.40 Number of Service-Entrance Conductor Sets .....	148
230.42 Size and Rating.....	148
230.43 Wiring Methods.....	149
230.46 Spliced Conductors.....	149
230.50 Protection Against Physical Damage .....	149
230.51 Cable Supports .....	150
230.54 Overhead Service Locations.....	150
230.56 High-Leg Identification.....	150
<b>Part V. Service Equipment—General .....</b>	151
230.66 Listed as Suitable for Service Equipment .....	151
<b>Part VI. Service Equipment—Disconnecting Means.....</b>	151
230.70 Disconnect Requirements .....	151
230.71 Number of Disconnects.....	153
230.72 Grouping of Disconnects.....	153
230.76 Manual or Power Operated .....	154
230.77 Indicating.....	154
230.79 Rating of Disconnect.....	154
230.81 Connection to Terminals.....	155
230.82 Connected on Supply Side of the Service Disconnect.....	155
<b>Part VII. Service Equipment Overcurrent Protection .....</b>	156
230.90 Overload Protection Required.....	156
230.95 Ground-Fault Protection of Equipment .....	156
<b>ARTICLE 240—OVERCURRENT PROTECTION .....</b>	158
<b>Part I. General .....</b>	158
240.1 Scope .....	158
240.2 Definitions .....	159
240.3 Protection of Equipment.....	160
240.4 Protection of Conductors.....	160
240.5 Protection of Flexible Cords and Fixture Wires .....	163
240.6 Standard Ampere Ratings .....	164
240.10 Supplementary Overcurrent Protection.....	164
240.13 Ground-Fault Protection of Equipment.....	164
240.15 Ungrounded Conductors .....	165
<b>Part II. Location.....</b>	166
240.21 Overcurrent Protection Location in Circuit .....	166
240.24 Location of Overcurrent Devices .....	170
<b>Part III. Enclosures .....</b>	172
240.32 Damp or Wet Locations .....	172
240.33 Vertical Position .....	172
<b>Part V. Plug Fuses, Fuseholders, and Adapters .....</b>	173
240.50 General.....	173
240.51 Edison-Base Fuses .....	173
240.52 Edison-Base Fuseholders.....	173
240.53 Type S Fuses .....	173
240.54 Type S Fuses, Adapters, and Fuseholders.....	173
<b>Part VI. Cartridge Fuses and Fuseholders.....</b>	174
240.60 General.....	174
240.61 Classification .....	174
<b>Part VII. Circuit Breakers.....</b>	175
240.80 Method of Operation .....	175
240.81 Indicating.....	175
240.82 Nontamperable .....	175
240.83 Markings .....	175
240.85 Applications .....	176
<b>ARTICLE 250—GROUNDING AND BONDING .....</b>	177
<b>Part I. General .....</b>	177
250.1 Scope .....	177
250.2 Definitions .....	177
250.4 General Requirements for Grounding and Bonding .....	179
250.6 Objectionable Current .....	185
250.8 Termination of Grounding and Bonding Conductors .....	189
250.10 Protection of Fittings .....	189
250.12 Clean Surfaces .....	189
<b>Part II. System Grounding and Bonding .....</b>	189
250.20 Systems Required to be Grounded .....	189
250.21 Ungrounded Systems—50V to Less Than 100V .....	190
250.24 Service Equipment—Grounding and Bonding .....	190
250.28 Main Bonding Jumper and System Bonding Jumper .....	195
250.30 Separately Derived Systems—Grounding and Bonding .....	197
250.32 Buildings or Structures Supplied by a Feeder or Branch Circuit.....	203
250.34 Generators—Portable and Vehicle-Mounted.....	205
250.35 Permanently Installed Generators.....	206
250.36 High-Impedance Grounded Systems .....	206
<b>Part III. Grounding Electrode System and Grounding Electrode Conductor .....</b>	207
250.50 Grounding Electrode System .....	207
250.52 Grounding Electrode Types .....	208
250.53 Grounding Electrode Installation Requirements .....	210
250.54 Auxiliary Grounding Electrodes .....	215
250.58 Common Grounding Electrode .....	216
250.60 Lightning Protection Electrode .....	217
250.62 Grounding Electrode Conductor .....	217
250.64 Grounding Electrode Conductor Installation .....	218
250.66 Sizing Grounding Electrode Conductor .....	220
250.68 Termination to the Grounding Electrode .....	222
250.70 Grounding Electrode Conductor Termination Fittings .....	223
<b>Part IV. Grounding Enclosure, Raceway, and Service Cable Connections .....</b>	223
250.80 Service Raceways and Enclosures .....	223
250.86 Other Enclosures .....	223

## Table of Contents

Part V. Bonding .....	224	Part III. Connecting Surge protective devices .....	256
250.90 General.....	224	285.23 Type 1 SPD—Line Side of Service Equipment.....	256
250.92 Bonding Equipment for Services .....	224	285.24 Type 2 SPD—Feeder Circuits .....	256
250.94 Intersystem Bonding Termination .....	227	285.25 Type 3 SPDs—Branch Circuits.....	257
250.96 Bonding Other Enclosures .....	229	<b>Chapter 2. Wiring and Protection—Practice Questions</b> .....	258
250.97 Bonding Metal Parts Containing 277V and 480V Circuits .....	229		
250.102 Bonding Conductors and Jumpers .....	230		
250.104 Bonding of Piping Systems and Exposed Structural Metal .....	232		
250.106 Lightning Protection System .....	235		
<b>Part VI. Equipment Grounding and Equipment Grounding Conductors .....</b>	<b>236</b>	<b>CHAPTER 3—WIRING METHODS AND MATERIALS .....</b>	<b>273</b>
250.110 Fixed Equipment Connected by Permanent Wiring Methods—General .....	236	<b>ARTICLE 300—WIRING METHODS .....</b>	<b>277</b>
250.112 Specific Equipment Fastened in Place or Connected by Permanent Wiring Methods .....	236	<b>Part I. General .....</b>	<b>277</b>
250.114 Cord-and-Plug-Connected Equipment.....	237	300.1 Scope .....	277
250.118 Types of Equipment Grounding Conductors .....	237	300.3 Conductors .....	278
250.119 Identification of Equipment Grounding Conductors .....	240	300.4 Protection Against Physical Damage .....	280
250.120 Equipment Grounding Conductor Installation.....	242	300.5 Underground Installations .....	283
250.121 Use of Equipment Grounding Conductors .....	242	300.6 Protection Against Corrosion and Deterioration.....	287
250.122 Sizing Equipment Grounding Conductor .....	242	300.7 Raceways Exposed to Different Temperatures.....	288
250.126 Identification of Wiring Device Terminals .....	245	300.8 Not Permitted in Raceways .....	289
<b>Part VII. Methods of Equipment Grounding .....</b>	<b>245</b>	300.9 Raceways in Wet Locations Above Grade .....	289
250.130 Replacing Nongrounding Receptacles .....	245	300.10 Electrical Continuity .....	289
250.134 Equipment Fastened in Place or Connected by Wiring Methods .....	246	300.11 Securing and Supporting.....	290
250.136 Equipment Considered Grounded.....	247	300.12 Mechanical Continuity.....	292
250.138 Cord-and-Plug-Connected Equipment.....	247	300.13 Splices and Pigtailed.....	293
250.140 Ranges, Ovens, and Clothes Dryers.....	247	300.14 Length of Free Conductors.....	294
250.142 Use of Neutral Conductor for Equipment Grounding.....	247	300.15 Boxes or Conduit Bodies .....	295
250.146 Connecting Receptacle Grounding Terminal to Metal Enclosure.....	248	300.16 Raceway or Cable to Open or Concealed Wiring .....	297
250.148 Continuity and Attachment of Equipment Grounding Conductors in Boxes .....	251	300.17 Raceway Sizing .....	297
<b>Part VIII. Direct-Current Systems .....</b>	<b>252</b>	300.18 Inserting Conductors in Raceways .....	299
250.166 Sizing Grounding Electrode Conductor .....	252	300.19 Supporting Conductors in Vertical Raceways .....	299
<b>ARTICLE 285—SURGE PROTECTIVE DEVICES (SPDS) .....</b>	<b>254</b>	300.20 Induced Currents in Ferrous Metal Enclosures and Raceways .....	300
<b>Part I. General .....</b>	<b>255</b>	300.21 Spread of Fire or Products of Combustion .....	301
285.1 Scope .....	255	300.22 Wiring in Ducts Not for Air Handling, Fabricated Ducts for Environmental Air, and Other Spaces For Environmental Air (Plenums) .....	302
285.3 Uses Not Permitted .....	255	300.23 Panels Designed to Allow Access .....	304
285.4 Number Required.....	255		
285.5 Listing .....	255		
285.6 Short-Circuit Current Rating .....	255		
<b>Part II. Installation .....</b>	<b>256</b>		
285.11 Location .....	256		
285.12 Routing of Conductors .....	256		
		<b>ARTICLE 310—CONDUCTORS FOR GENERAL WIRING .....</b>	<b>306</b>
		<b>Part I. General .....</b>	<b>306</b>
		310.1 Scope .....	306
		<b>Part II. Installation .....</b>	<b>306</b>
		310.10 Uses Permitted .....	306
		310.15 Conductor Ampacity.....	309
		<b>Part III. Construction Specification .....</b>	<b>316</b>
		310.104 Conductor Construction and Application .....	316
		310.106 Conductors .....	318
		310.110 Conductor Identification .....	319

<b>ARTICLE 312—CABINETS, CUTOUT BOXES, AND METER SOCKET ENCLOSURES .....</b>	320	320.108 Equipment Grounding Conductor.....	345
312.1 Scope .....	320		
<b>PART I. INSTALLATION.....</b>	321	<b>ARTICLE 330—METAL-CLAD CABLE (TYPE MC).....</b>	346
312.2 Damp or Wet Locations.....	321	Part I. General.....	346
312.3 Installed in Walls.....	321	330.1 Scope.....	346
312.4 Repairing Gaps .....	321	330.2 Definition.....	346
312.5 Enclosures.....	321	<b>Part II. Installation.....</b>	346
312.6 Deflection of Conductors.....	322	330.10 Uses Permitted .....	346
312.8 Enclosures With Splices, Taps, and Feed-Through Conductors .....	322	330.12 Uses Not Permitted .....	347
<b>ARTICLE 314—OUTLET, DEVICE, PULL AND JUNCTION BOXES; CONDUIT BODIES; AND HANHOLE ENCLOSURES.....</b>	324	330.17 Through or Parallel to Framing Members.....	347
Part I. Scope and General .....	324	330.23 In Accessible Attics or Roof Spaces.....	348
314.1 Scope .....	324	330.24 Bends .....	348
314.3 Nonmetallic Boxes .....	324	330.30 Securing and Supporting.....	348
314.4 Metal Boxes.....	324	330.40 Fittings .....	349
Part II. Installation.....	324	330.80 Conductor Ampacities .....	350
314.15 Damp or Wet Locations .....	324	<b>Part III. Construction Specifications.....</b>	350
314.16 Number of 6 AWG and Smaller Conductors in Boxes and Conduit Bodies .....	325	330.108 Equipment Grounding Conductor.....	350
314.17 Conductors That Enter Boxes or Conduit Bodies .....	329		
314.20 Boxes Recessed in Walls or Ceilings .....	330	<b>ARTICLE 334—NONMETALLIC-SHEATHED CABLE (TYPES NM AND NMC).....</b>	351
314.21 Repairing Noncombustible Surfaces.....	330	Part I. General.....	351
314.22 Surface Extensions .....	330	334.1 Scope .....	351
314.23 Support of Boxes and Conduit Bodies.....	331	334.2 Definition.....	351
314.27 Outlet Box.....	334	334.6 Listed .....	351
314.28 Boxes and Conduit Bodies for Conductors 4 AWG and Larger.....	335	<b>Part II. Installation.....</b>	352
314.29 Wiring to be Accessible .....	339	334.10 Uses Permitted .....	352
314.30 Handhole Enclosures .....	339	334.12 Uses Not Permitted .....	353
<b>ARTICLE 320—ARMORED CABLE (TYPE AC).....</b>	341	334.15 Exposed.....	353
Part I. General.....	341	334.17 Through or Parallel to Framing Members.....	354
320.1 Scope .....	341	334.23 Attics and Roof Spaces .....	354
320.2 Definition .....	341	334.24 Bends .....	355
Part II. Installation.....	341	334.30 Securing and Supporting.....	355
320.10 Uses Permitted .....	341	334.80 Conductor Ampacity .....	356
320.12 Uses Not Permitted .....	342	<b>Part III. Construction Specifications.....</b>	358
320.15 Exposed Work.....	342	334.100 Construction .....	358
320.17 Through or Parallel to Framing Members.....	342	334.104 Conductors .....	358
320.23 In Accessible Attics or Roof Spaces .....	343	334.108 Equipment Grounding Conductor.....	358
320.24 Bends .....	343	334.112 Insulation.....	358
320.30 Securing and Supporting.....	343		
320.40 Boxes and Fittings .....	344	<b>ARTICLE 338—SERVICE-ENTRANCE CABLE (TYPES SE AND USE).....</b>	359
