INTRODUCTION xi

HOW TO USE THE NATIONAL ELECTRICAL CODExiv

ARTICLE 90—INTRODUCTION TO THE NATIONAL ELECTRICAL CODE..... 1

90.1 Purpose of the *NEC*..... 1
 90.2 Scope of the *NEC* 2
 90.3 Code Arrangement 3
 90.4 Enforcement..... 4
 90.5 Mandatory Requirements and Explanatory Material..... 5
 90.6 Formal Interpretations..... 5
 90.7 Examination of Equipment for Product Safety 6
 90.9 Units of Measurement 6
 Article 90—Practice Questions..... 7

ARTICLE 100—DEFINITIONS 8

Definitions 8
 Article 100—Practice Questions..... 16

ARTICLE 110—REQUIREMENTS FOR ELECTRICAL INSTALLATIONS17

Part I. General Requirements17

110.1 Scope17
 110.2 Approval of Conductors and Equipment17
 110.3 Examination, Identification, Installation, and Use of Equipment17
 110.5 Copper Conductors.....18
 110.6 Conductor Sizes18
 110.7 Wiring Integrity18
 110.8 Suitable Wiring Methods19
 110.11 Deteriorating Agents.....19
 110.12 Mechanical Execution of Work.....20
 110.13 Mounting and Cooling of Equipment.....21
 110.14 Conductor Termination and Splicing.....21
 110.20 Enclosure Types23
 110.21 Manufacturer’s Markings.....24

Part II. 600V, Nominal, or Less.....24

110.26 Spaces About Electrical Equipment24
 110.27 Guarding.....27
 Article 110—Practice Questions.....28

ARTICLE 250—GROUNDING AND BONDING.....29

Part I. General29

250.1 Scope29
 250.4 General Requirements for Grounding and Bonding.....29
 250.8 Termination of Grounding and Bonding Conductors...30
 250.10 Protection of Fittings.....30
 250.12 Clean Surfaces30

Part II. System Grounding and Bonding.....30
 250.20 Systems Required to be Grounded30

Part III. Grounding Electrode System and Grounding Electrode Conductor 30

250.52 Grounding Electrode Types.....30
 250.53 Grounding Electrode Installation Requirements33
 250.62 Grounding Electrode Conductor.....33
 250.64 Grounding Electrode Conductor Installation.....33
 250.70 Grounding Electrode Conductor Termination Fittings ..34

Part V. Bonding.....34

250.94 Intersystem Bonding Terminal.....34

Part VI. Equipment Grounding and Equipment Grounding Conductors.....36

250.112 Fastened in Place or Connected by Permanent Wiring Methods (Fixed)36
 Article 250—Practice Questions.....37

ARTICLE 300—WIRING METHODS 38

Part I. General Requirements38

300.1 Scope38
 300.3 Conductors39
 300.4 Protection Against Physical Damage.....40
 300.5 Underground Installations42
 300.6 Protection Against Corrosion and Deterioration43
 300.7 Raceways Exposed to Different Temperatures.....45
 300.8 Not Permitted in Raceways45
 300.9 Raceways in Wet Locations Above Grade46
 300.10 Electrical Continuity46
 300.11 Securing and Supporting.....46
 300.12 Mechanical Continuity.....47
 300.15 Boxes or Conduit Bodies.....48
 300.17 Raceway Sizing49
 300.18 Inserting Conductors in Raceways49
 300.21 Spread of Fire or Products of Combustion50
 300.22 Ducts, Plenums, and Other Air-Handling Spaces50
 300.23 Panels Designed to Allow Access53
 Article 300—Practice Questions.....54

ARTICLE 314—OUTLET, DEVICE, PULL AND JUNCTION BOXES, CONDUIT BODIES, AND HANDHOLE ENCLOSURES 56

Part I. Scope and General.....56

314.1 Scope56
 314.3 Nonmetallic Boxes56
 314.4 Metal Boxes56

Part II. Installation57

314.15 Damp or Wet Locations.....57
 314.20 Boxes Recessed in Walls or Ceilings57
 314.21 Repairing Gaps Around Boxes.....58

Table of Contents

314.23	Support of Boxes and Conduit Bodies.....	58	348.30	Securing and Supporting.....	76
314.25	Covers and Canopies.....	59	348.42	Fittings.....	77
314.29	Wiring to be Accessible.....	60		Article 348—Practice Questions.....	78
314.30	Handhole Enclosures.....	60			
	Article 314—Practice Questions.....	62			
	ARTICLE 342—INTERMEDIATE METAL CONDUIT (TYPE IMC)	63		ARTICLE 350—LIQUIDTIGHT FLEXIBLE METAL CONDUIT (TYPE LFMC)	79
	Part I. General	63		Part I. General	79
342.1	Scope.....	63	350.1	Scope.....	79
342.2	Definition.....	63	350.2	Definition.....	79
342.6	Listing Requirements.....	63	350.6	Listing Requirements.....	79
	Part II. Installation	63		Part II. Installation	79
342.10	Uses Permitted.....	63	350.10	Uses Permitted.....	79
342.14	Dissimilar Metals.....	63	350.12	Uses Not Permitted.....	79
342.20	Trade Size.....	63	350.20	Trade Size.....	79
342.22	Number of Conductors.....	64	350.22	Number of Conductors.....	80
342.24	Bends.....	64	350.24	Bends.....	80
342.26	Number of Bends (360°).....	64	350.26	Number of Bends (360°).....	80
342.28	Reaming.....	64	350.30	Securing and Supporting.....	80
342.30	Securing and Supporting.....	64	350.42	Fittings.....	81
342.42	Couplings and Connectors.....	66		Article 350—Practice Questions.....	82
342.46	Bushings.....	66			
	Article 342—Practice Questions.....	68			
	ARTICLE 344—RIGID METAL CONDUIT (TYPE RMC)	69		ARTICLE 352—RIGID POLYVINYL CHLORIDE CONDUIT TYPE (PVC)	83
	Part I. General	69		Part I. General	83
344.1	Scope.....	69	352.1	Scope.....	83
344.2	Definition.....	69	352.2	Definition.....	83
344.6	Listing Requirements.....	69		Part II. Installation	83
	Part II. Installation	69	352.10	Uses Permitted.....	83
344.10	Uses Permitted.....	69	352.12	Uses Not Permitted.....	84
344.14	Dissimilar Metals.....	70	352.20	Trade Size.....	85
344.20	Trade Size.....	70	352.22	Number of Conductors.....	85
344.22	Number of Conductors.....	70	352.24	Bends.....	85
344.24	Bends.....	70	352.26	Number of Bends (360°).....	85
344.26	Number of Bends (360°).....	70	352.28	Trimming.....	85
344.28	Reaming.....	70	352.30	Securing and Supporting.....	86
344.30	Securing and Supporting.....	70	352.44	Expansion Fittings.....	86
344.42	Couplings and Connectors.....	72	352.48	Joints.....	87
344.46	Bushings.....	72		Article 352—Practice Questions.....	88
	Article 344—Practice Questions.....	74			
	ARTICLE 348—FLEXIBLE METAL CONDUIT (TYPE FMC)	75		ARTICLE 356—LIQUIDTIGHT FLEXIBLE NONMETALLIC CONDUIT (TYPE LFNC)	89
	Part I. General	75		Part I. General	89
348.1	Scope.....	75	356.1	Scope.....	89
348.2	Definition.....	75	356.2	Definition.....	89
348.6	Listing Requirements.....	75	356.6	Listing Requirement.....	89
	Part II. Installation	75		Part II. Installation	89
348.10	Uses Permitted.....	75	356.10	Uses Permitted.....	89
348.12	Uses Not Permitted.....	75	356.12	Uses Not Permitted.....	89
348.20	Trade Size.....	75	356.20	Trade Size.....	90
348.22	Number of Conductors.....	76	356.22	Number of Conductors.....	90
348.24	Bends.....	76	356.24	Bends.....	90
348.26	Number of Bends (360°).....	76	356.26	Number of Bends (360°).....	90
348.28	Trimming.....	76	356.30	Securing and Supporting.....	90
			356.42	Fittings.....	91
				Article 356—Practice Questions.....	92

ARTICLE 358—ELECTRICAL METALLIC TUBING (TYPE EMT)93	392.4	Uses Not Permitted.....	108
Part I. General93	392.6	Installation.....	108
358.1 Scope.....93	392.8	Cable Installation.....	109
358.2 Definition.....93		Article 392—Practice Questions.....	110
358.6 Listing Requirement.....93			
Part II. Installation93	ARTICLE 400—FLEXIBLE CORDS AND FLEXIBLE CABLES111		
358.10 Uses Permitted.....93	400.1	Scope.....	111
358.12 Uses Not Permitted.....94	400.3	Suitability.....	111
358.20 Trade Size.....94	400.4	Types of Flexible Cords and Flexible Cables.....	111
358.22 Number of Conductors.....94	400.7	Uses Permitted.....	111
358.24 Bends.....94	400.8	Uses Not Permitted.....	111
358.26 Number of Bends (360°).....95	400.10	Pull at Joints and Terminals.....	112
358.28 Reaming and Threading.....95	400.14	Protection from Damage.....	113
358.30 Securing and Supporting.....95	400.22	Neutral Conductor Identification.....	113
358.42 Couplings and Connectors.....96		Article 400—Practice Questions.....	114
Article 358—Practice Questions.....97			
ARTICLE 362—ELECTRICAL NONMETALLIC TUBING (TYPE ENT) ...98	ARTICLE 402—FIXTURE WIRES115		
Part I. General98	402.1	Scope.....	115
362.1 Scope.....98	402.3	Types.....	115
362.2 Definition.....98	402.5	Allowable Ampacity of Fixture Wires.....	115
Part II. Installation98	402.6	Minimum Size.....	115
362.10 Uses Permitted.....98	402.7	Raceway Size.....	115
362.12 Uses Not Permitted.....99	402.8	Neutral Conductor.....	116
362.20 Trade Sizes.....101		Article 402—Practice Questions.....	117
362.22 Number of Conductors.....101	ARTICLE 411—LIGHTING SYSTEMS OPERATING AT 30V OR LESS118		
362.24 Bends.....101	411.1	Scope.....	118
362.26 Number of Bends (360°).....101	411.2	Definition.....	118
362.28 Trimming.....101	411.3	Listing Required.....	118
362.30 Securing and Supporting.....101	411.4	Specific Location Requirements.....	119
362.48 Joints.....102	411.5	Secondary Circuits.....	119
Article 362—Practice Questions.....103		Article 411—Practice Questions.....	120
ARTICLE 386—SURFACE METAL RACEWAYS104	ARTICLE 500—HAZARDOUS LOCATIONS121		
Part I. General104	500.1	Scope—Articles 500 Through 504.....	121
386.1 Scope.....104	500.2	Definitions.....	122
386.2 Definition.....104	500.3	Other Articles.....	123
386.6 Listing Requirements.....104	500.4	General.....	123
Part II. Installation104	500.5	Classifications of Locations.....	124
386.10 Uses Permitted.....104	500.7	Protection Techniques.....	126
386.12 Uses Not Permitted.....105	500.8	Equipment.....	127
386.21 Size of Conductors.....105	500.9	Specific Occupancies.....	129
386.22 Number of Conductors.....105		Article 500—Practice Questions.....	130
386.30 Securing and Supporting.....105	ARTICLE 501—CLASS I HAZARDOUS LOCATIONS131		
386.56 Splices and Taps.....105	Part I. General131		
386.70 Separate Compartments.....105	501.1	Scope.....	131
Article 386—Practice Questions.....106	Part II. Wiring131		
ARTICLE 392—CABLE TRAYS107	501.10	Wiring Methods.....	131
Part I. General107	501.15	Conduit and Cable Seals.....	133
392.1 Scope.....107	Part III. Equipment137		
392.2 Definition.....107	501.150	Limited Energy and Communication Systems.....	137
Part II. Installation107		Article 501—Practice Questions.....	139
392.3 Uses Permitted.....107			

Table of Contents

ARTICLE 502—CLASS II HAZARDOUS LOCATIONS	140	ARTICLE 725—REMOTE-CONTROL, SIGNALING, AND POWER-LIMITED CIRCUITS	158
Part I. General	140	Part I. General	158
502.1 Scope	140	725.1 Scope	158
502.5 Explosionproof Equipment.....	140	725.2 Definitions	158
Part II. Wiring	141	725.3 Other Articles.....	159
502.10 Wiring Methods.....	141	725.21 Electrical Equipment Behind Access Panels.....	161
502.15 Seals.....	142	725.24 Mechanical Execution of Work	162
Part III. Equipment	142	725.25 Abandoned Cable	162
502.150 Limited Energy and Communication Systems.....	142	725.31 Safety-Control Equipment	163
Article 502—Practice Questions.....	144	725.35 Circuit Requirements	163
ARTICLE 503—CLASS III HAZARDOUS LOCATIONS	145	Part II. Class 1 Circuit Requirements	163
Part I. General	145	725.41 Class 1 Circuit Classifications and Power-Supply Requirements	163
503.1 Scope	145	725.46 Class 1 Circuit Wiring Methods	164
503.5 General	145	725.48 Conductors of Different Circuits in Same Cable, Enclosure, or Raceway	164
Part II. Wiring	145	725.49 Class 1 Circuit Conductors	164
503.10 Wiring Methods.....	145	725.51 Number of Conductors in a Raceway	164
Part III. Equipment	145	Part III. Class 2 and Class 3 Circuit Requirements	165
503.150 Limited Energy and Communication Systems.....	145	725.121 Power Sources for Class 2 and Class 3 Circuits	165
Article 503—Practice Questions.....	146	725.124 Equipment Marking.....	166
ARTICLE 640—AUDIO SIGNAL PROCESSING, AMPLIFICATION, AND REPRODUCTION EQUIPMENT	147	725.127 Wiring Methods on Supply Side of the Class 2 or Class 3 Power Source	166
Part I. General	147	725.130 Wiring Methods on Load Side of the Class 2 or Class 3 Power Source	166
640.1 Scope	147	725.136 Separation from Power Conductors	166
640.2 Definitions	147	725.139 Conductors of Different Circuits in Same Cable, Enclosure, or Raceway	167
640.3 Locations and Other Articles	147	725.143 Support.....	168
640.4 Protection of Electrical Equipment.....	148	725.154 Applications of Class 2 and Class 3 Cables	169
640.6 Mechanical Execution of Work.....	148	Part VI. Listing Requirements	171
640.7 Grounding and Bonding	149	725.179 Listing and Marking Requirements of Class 2 and Class 3 Cables and Raceways	171
640.9 Wiring Methods.....	150	Article 725—Practice Questions.....	173
640.10 Audio Systems Near Bodies of Water	150	ARTICLE 760—FIRE ALARM SYSTEMS	174
Part II. Permanent Audio System Installations	150	Part I. General	174
640.21 Use of Flexible Cords and Flexible Cables.....	150	760.1 Scope	174
640.22 Wiring of Equipment Racks	150	760.2 Definitions	174
640.23 Number of Conductors in a Raceway	151	760.3 Other Articles.....	175
640.25 Loudspeakers in Fire-Resistance-Rated Partitions, Walls, and Ceilings	151	760.21 Access to Electrical Equipment Behind Panels Designed to Allow Access	176
Article 640—Practice Questions.....	152	760.24 Mechanical Execution of Work.....	176
ARTICLE 645—INFORMATION TECHNOLOGY EQUIPMENT	153	760.25 Abandoned Cable	176
645.1 Scope	153	760.30 Fire Alarm Circuit Identification	177
645.2 Definitions	153	760.32 Fire Alarm Circuit Cables Extending Beyond a Building	178
645.4 Information Technology Equipment Room.....	153	760.35 Fire Alarm Circuit Requirements.....	178
645.5 Supply Circuits and Interconnecting Cables.....	154	Part III. Power-Limited Fire Alarm (PLFA) Circuits	178
645.6 Cables Not in Information Technology Equipment Room.....	156	760.121 Power Sources for Power-Limited Fire Alarm Circuits	178
645.7 Penetrations	156	760.124 Equipment Marking.....	178
645.10 Disconnecting Means.....	156	760.130 Wiring Methods on Load Side of Power-Limited Fire Alarm Power Source	179
645.11 Uninterruptible Power Supplies (UPS).....	156		
645.15 Equipment Grounding Conductor	156		
Article 645—Practice Questions.....	157		

760.136 Separation from Power Conductors 179

760.139 Power-Limited Fire Alarm Circuits, Class 2, Class 3,
and Communications Circuits 180

760.143 Support 180

760.154 Applications of Power-Limited Fire Alarm Cables
(PLFA) 180

Part IV. Listing Requirements 181

760.179 Listing and Marking Requirements of Power-Limited
Fire Alarm Cables (PLFA) 181

Article 760—Practice Questions 183

ARTICLE 770—OPTICAL FIBER CABLES AND RACEWAYS 184

Part I. General 184

770.1 Scope 184

770.2 Definitions 184

770.3 Locations and Other Articles 185

770.6 Optical Fiber Cables 186

770.12 Innerduct 186

770.21 Access to Electrical Equipment Behind Panels
Designed to Allow Access 186

770.24 Mechanical Execution of Work 186

770.25 Abandoned Cable 188

770.26 Spread of Fire or Products of Combustion 188

Part II. Cables Outside and Entering Buildings 189

770.48 Unlisted Cables Entering Buildings 189

Part V. Installation Methods Within Buildings 189

770.110 Raceways for Optical Fiber Cables 189

770.113 Listing of Optical Fiber Cables 189

770.133 Installation of Optical Fiber Cables 190

770.154 Applications of Optical Fiber Cables and Raceways 191

Part VI. Listing Requirements 191

770.179 Listing Requirements for Optical Fiber Cables 191

770.182 Listing Requirements for Optical Fiber Raceways 192

Article 770—Practice Questions 193

ARTICLE 800—COMMUNICATIONS CIRCUITS 194

Part I. General 194

800.1 Scope 194

800.2 Definitions 194

800.3 Other Articles 195

800.18 Installation of Equipment 195

800.21 Access to Electrical Equipment Behind Panels
Designed to Allow Access 195

800.24 Mechanical Execution of Work 195

800.25 Abandoned Cable 197

800.26 Spread of Fire or Products of Combustion 197

PART II. Cables Outside and Entering Buildings 198

800.44 Overhead Communications Cables 198

800.48 Unlisted Cables Entering Buildings 198

800.53 Lightning Conductors 198

Part III. Protection 198

800.90 Primary Protection 198

Part IV. Grounding Methods 199

800.100 Cable Grounding 199

Part V. Installation Methods Within Buildings 201

800.110 Raceways for Communications Circuits 201

800.113 Listing of Communications Cables 202

800.133 Installation of Communications Cables 202

800.154 Applications of Communications Cables 203

800.156 Dwelling Unit Communications Outlet 205

Part VI. Listing Requirements 205

800.179 Listing Requirements for Communications Cables 205

800.182 Listing Requirements for Communications Raceways 206

Article 800—Practice Questions 207

ARTICLE 810—RADIO AND TELEVISION EQUIPMENT 208

Part I. General 208

810.1 Scope 208

810.3 Other Articles 209

810.4 Community Television Antenna 209

Part II. Receiving Equipment—Antenna Systems 209

810.12 Support of Lead-In Cables 209

810.13 Avoid Contact with Conductors of Other Systems 210

810.15 Metal Antenna Supports—Grounding 210

810.18 Clearances 210

810.20 Antenna Discharge Unit 211

810.21 Grounding Conductors 211

**Part III. Amateur Transmitting and Receiving Stations—Antenna
Systems** 213

810.51 Other Sections 213

810.54 Clearance on Building 213

810.57 Antenna Discharge Units 213

810.58 Grounding Conductors 213

Article 810—Practice Questions 215

**ARTICLE 820—COMMUNITY ANTENNA TELEVISION (CATV) AND
RADIO DISTRIBUTION SYSTEMS** 216

Part I. General 216

820.1 Scope 216

820.2 Definitions 216

820.3 Locations and Other Articles 217

820.15 Power Limitations 218

820.21 Access to Electrical Equipment Behind Panels
Designed to Allow Access 218

820.24 Mechanical Execution of Work 218

820.25 Abandoned Cable 219

820.26 Spread of Fire or Products of Combustion 219

Part II. Coaxial Cables Outside and Entering Buildings 220

820.44 Overhead Coaxial Cables 220

820.47 Underground Circuits Entering Buildings 220

820.48 Unlisted Cables and Raceways Entering Buildings 221

Part III. Protection 221

820.93 Grounding or Interruption of Metallic Members of
Coaxial CATV Cables 221

Table of Contents

Part IV. Grounding Methods	221
820.100 Cable Grounding.....	221
Part V. Installation Methods Within Buildings	224
820.110 Raceways for Coaxial Cables.....	224
820.113 Listing of Coaxial Cables.....	225
820.133 Installation of Coaxial Cables and Equipment.....	225
820.154 Applications of Coaxial Cables and Raceways.....	226
Part VI. Listing Requirements	228
820.179 Listing Requirements for Coaxial Cables	228
820.182 Listing Requirements for Coaxial Raceways	228
Article 820—Practice Questions.....	229
