

The Leviton Manufacturing Company has its origins at the dawn of the electrical era in 1906. Originally engaged in the fabrication of mantle tips for gas lighting, the Company soon converted to production of a single electrical product — a pull-chain lampholder.

Today, Leviton's product offering comprises more than 20,000 distinct catalog numbers, and the Company stands as a leader in the electrical industry as it serves industrial, commercial, OEM and residential markets through retail and distribution channels.

From its origin, the Leviton Company has been at the forefront of progress and innovation within the electrical industry. It sustains this legacy with a continuing commitment to pioneering new technologies, implementing enlightened business policies, and providing outstanding responsiveness. No matter which markets our customers serve, they are well-served by Leviton.

**Grounding & Bonding
and
Lighting Controls**

SEMINAR

*For Electrical Contractors
& Engineers*

**April 30, 2003
7:00 a.m. – 4:00 p.m.
Courtyard Marriott
63 Grand Street
Waterbury, CT**

Grounding and Bonding

Leviton is proud to bring Mike Holt to Waterbury to present a Grounding and Bonding seminar. Mike is nationally recognized as one of America's most knowledgeable electrical trainers and has touched the lives of many thousands of electricians, inspectors, contractors and engineers. His dynamic and animated teaching style is relaxed, direct and fun.

Mike will cover a variety of Code subjects with special emphasis on Grounding and Bonding. This seminar is directly applicable to electrical engineers, designers, and other electrical professionals involved in the design of electrical systems.

In this seminar you will learn about:

- Purpose of grounding
- Systems grounding versus circuit grounding
- Location of grounding connection
- Enclosure grounding
- Equipment grounding
- Method for grounding and bonding of services and transformers

Lighting Controls Overview

Leviton will present a lighting controls overview seminar.

Leviton wants to be certain you are aware of their new box-mount dimmer offering. A Leviton representative will be on hand to review the entire line, including features, functions and "sell-up" benefits to you. Highlighted will be the convenience and advantages of digital dimming. Besides walking away with a deeper knowledge of this outstanding product line, you'll also walk away with free samples.
