"Safety is an ethical responsibility to protect workers by any means necessary."

Support Our Troops

Safety Training That Educates and Motivates

Our mission is to prevent injuries at home and in the workplace through education and training.

**Safety Training Specific to Your Site and Equipment.
Conducted by OSHA Authorized Safety Trainers.**

Arc- Flash

NFPA 70E

NFPA 70B

Confined Space

Lockout Tag out

OSHA 10&30 Hour General Industry

Electrical Safety Low and Medium Voltage

A representative from the Indiana Safety Council will consult with the management at your facility to identify specific training solutions, based on your equipment and the task your employees are expected to perform. The next step is to develop a curriculum and training materials that are OSHA and NFPA compliant.

An instructor and/or multiple instructors will come to your facility deliver the program and document the training. Participants who successfully complete OSHA 10 or 30 hour training will receive course completion cards issued by the United States Department of Labor Occupational Safety and Health Administration.(OSHA)
