

Mike Holt's **BLENDED APPRENTICESHIP SYSTEM**

Electrical Training

at it's best...

What's the Mike Holt difference?

Mike Holt's Apprenticeship system combines print books, digital training, online testing, and instructor support into one complete system that empowers instructors and connects with students. This system is built on Mike Holt's powerful electrical training products, combined with web-based content delivery, to transform electrical training classrooms across the country. This blended model gives schools flexibility in student delivery and the ability to provide multiple options for their students.

Our Training System Includes:

- Print textbooks
- Digital textbooks
- Interactive online learning
- Streaming videos
- Digital classroom management

“ Allows training facilities to buy a single system that will take care of their needs through all levels of apprenticeship.

THREE DIFFERENT MODES OF INSTRUCTOR BASED DELIVERY

**LIVE INSTRUCTOR-LED
CLASSES**

**VIRTUAL ONLINE
INSTRUCTOR-LED CLASSES**

**INSTRUCTOR-COORDINATED
STUDENT-DIRECTED
DIGITAL LEARNING**

WHAT DO TEACHERS LIKE?

THE COMPREHENSIVE APPROACH

The detailed lesson plans walk instructors through a comprehensive learning plan, day-by-day and month-by-month. They make it easy for instructors to build on concepts that are already laid out sequentially.

LESS PLANNING TIME

Lesson plans are provided in an hour-by-hour format that details how long to spend on each topic and what videos, book sections, and presentation slides to cover during each session. This gives your program a uniform learning experience and eliminates unnecessary teacher lesson planning and prep time. This is as close to plug-and-play as you can get.

THE SYSTEM IS EASY TO USE

Using this system does not require any technical knowledge. Our team gets your school up-to-speed with the live and intuitive demonstration via screenshare for management, staff, and instructors.

NO MORE GRADING TESTS

The online automatic testing and grading saves instructors time building and having to grade quizzes and tests. All of the exams included in the textbooks are available online for students, as well as pre-built quarterly and final exams. This allows teachers to spend time improving their ability to teach, rather than spending time on grading.

ALL CONTENT AVAILABLE AT THEIR FINGERTIPS

All resources needed to teach the classes are available in one easy location. Curriculum and lesson plans, classroom slide presentations, quizzes and exam builder, digital videos, digital books, grade books, attendance records, classroom communication (including bulletin board, email and chat with the class), and a calendar system.

STUDENT SUCCESS

Learning is made easy with the clear instruction and hundreds of graphics in every book. Students enjoy learning the content that they can immediately apply on the job and use throughout their careers. Mobile content allows you access from anywhere at anytime.

“

I can't tell you how easy the material is for students to grasp

THE CAPACITOR EXPLAINED

Electrical Training Online Classroom

Mike Holt's Electrical Training resources now include an online Digital Classroom housed in our robust proprietary Learning Management Platform called "The Capacitor." The Capacitor was created by electricians, for electricians. It gives training directors, instructors, and students an easy-to-use method to master electrical training. This hybrid format of providing students with digital books, online testing, and engaging videos, coupled with Mike's best-selling books, provides a complete system to transform your classroom. The structured online training gives instructors step-by-step instructions for how to deliver powerful electrical training, while also tracking student progress. Contact us today to see how our proven system can help your system.

ESSENTIAL ELEMENTS

DIGITAL INSTRUCTIONAL CONTENT

Mike's transformational training is now available online. Students get the best-selling graphics and step-by-step instructions in a new digital format.

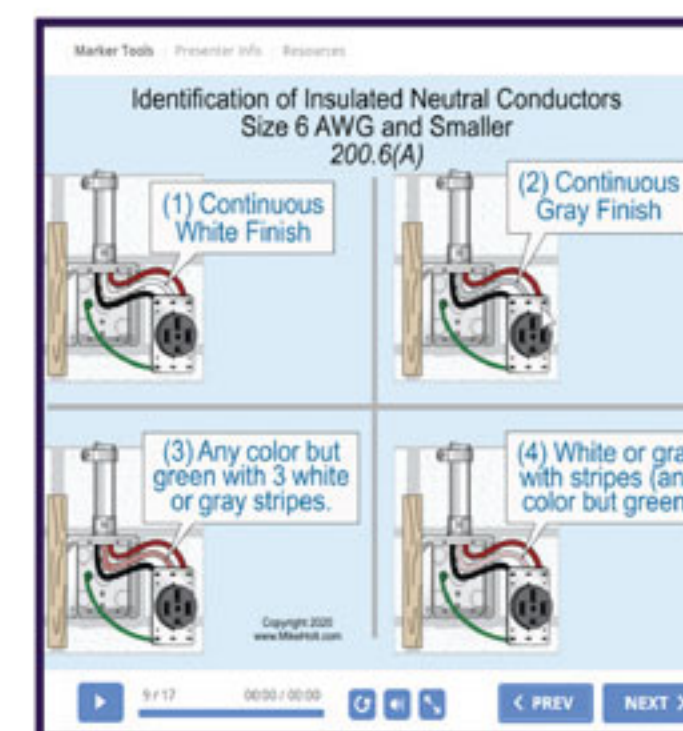

ADDITIONAL DIGITAL RESOURCES

High-impact elements provide a tool box of resources for instructors and students alike. From the online videos, to the classroom presentations, there is so much more to explore.

DIGITAL DASHBOARD

Whether you are a student or an instructor, the Digital Dashboard puts control into your hands. Everything that you need to manage the system is easily accessible and user-friendly.

ONLINE ASSESSMENT

Students receive immediate feedback on their mastery of the content with built-in practice questions. The administration view tracks and analyzes student progress.

WHAT OUR TRAINING CUSTOMERS ARE SAYING...

"The Mike Holt apprentice program is truly top notch. Mike Holt has set the standard for a quality apprenticeship. We have the utmost confidence our apprentices that are going through the program will be well rounded with the knowledge they need to be a successful Journeyman. Thank You to you and your team. If anyone is questioning whether they should enroll their apprentices, I would say do not hesitate."

- Matt W.

"I couldn't be more pleased with the Mike Holt Online training resource "The Capacitor". It is very user friendly for the teacher as well as the students. It is so nice to be able to access the student's progress, effort and scores with the click of a button. The thing that I like the most is the quick technology help that I always get when I need it."

- Ron T.

"I have been working with Mike Holt now for over 10 years and I could not be happier with the support I have received along the way. Mike's crew has helped me create programs to propose to state Electrical Boards and helped me offer Online training for students that don't have the option to go to class because of their geographical location or childcare. I would not hesitate to refer Mike Holt's program."

- Nathan P.

"The Capacitor" platform is absolutely excellent. It is a total one-source platform. The students stated many times about the excellence of the videos, testing resources, and its ease of use."

- Ron J.

"I absolutely love "The Capacitor". GREAT teaching tool especially for remote learning. Thank you so much. Using the material you sent me for my Zoom class was a great success. It brought excitement and visual graphics into the presentation that truly helped students grasp the concepts. Thanks again."

- Tim D.

"Our experience with Mike Holt Enterprises has been excellent from start to finish. The customer service has been exceptional. It's clear the staff of this company shares the same passion for quality and love for people that Mike clearly demonstrates. What a rare and refreshing quality in today's fast paced business world."

Mike Holt's textbooks and Online learning platform, "The Capacitor" are the ultimate resource library for helping to meet and exceed our state's standards. The material is so good it's also being prepared to bridge training between our high schools, regional post-secondary technical schools, and local contractor apprenticeship programs. Thanks again for setting us up for success. Your great work helps us equip our small part of the world with true professionals in the electrical industry."

- Scott S.

"We are very pleased with Mike Holt Enterprises, and use their material in our face-to-face apprenticeship classes and also use "The Capacitor" for our Online apprenticeship. All of our instructors feel that their material is the best available. Congratulations to Mike Holt Enterprises and staff for a job well done."

- Jerry O.
