Electrical Training Seminar

Learn the most important NEC® rules - minimize the risk of electric shock and fire...

Mike Holt is nationally recognized as one of America's most knowledgeable electrical trainers. His signature strength is his ability to communicate technical topics in an easy-to-understand way. www.MikeHolt.com

Mike Holt explains Bonding and Grounding, and what you need to know for safe installations

Topics Include:

- Preventing Electric Shock
- Grounding versus Ungrounded Systems
- System Grounding vs Equipment Grounding
- Grounding Myths

Few articles can match Article 250 for misapplication, violation and misinterpretation. This program is unique in its ability to explain grounding, bonding and the difference between them in such a clear and precise way. It will clear up confusing or seemingly conflicting NEC rules, and give tips on proper installations, cautions and warnings of dangers related to improper electrical installations.

Understanding bonding and grounding is absolutely essential for any professional who works with electricity. No one, but no one teaches bonding and grounding better than Mike Holt
