If you want to take your training to the next level, now is the time to attend!

Join other instructors from around the country for this one-of-a-kind Instructor Training Seminar! For over 15 years, this summer event has been the standard in helping Instructors and Training Directors take their programs to the next level.

Spend a few days learning cutting-edge techniques of instructional design, evaluation, and dynamic delivery methods. Master the principles of adult learning and performance-based training; learn how to use new teaching tools and products; employ PowerPoint presentations; and most of all, find out how "Mike does it."

This conference has been set up to precede our two-day Continuing Education Seminars which are held each summer. This not only gives instructors the opportunity to learn how to teach more effectively, but they can also extend their stay and attend Mike's Business Management and the National Electrical Code Update Seminar. It's the total experience and a chance to really see Mike in action!
