

SOLAR POWER BOOT CAMP

Presented by Mike Holt

A Program You Can't Afford To Miss

Spend a week with Mike Holt in Florida
learning everything you need to know
about Solar Power.

With traditional construction projects still suffering due to the economic climate, now is a good time to diversify and position yourself to explore other sources of income, especially alternative energy. Whether you want to learn how to install or service photovoltaic systems, or just want to understand this expanding technology, this course is for you.

Why Choose Mike's Program?

You'll receive a down-to-earth presentation on how this new technology will transform your business and you'll find out what you need to be aware of in terms of opportunities and pitfalls. Join Mike and his team of Solar Industry Experts as they explain each aspect of the solar business.

What You'll Learn:

- How to Design and Install Solar Power Systems
- How to apply the NEC rules that guarantee safe Solar Installation
- The economic realities of this technology and how it will impact your business
- What your customers need to know including how rebates work
- And so much more!

Who Should Attend?

- Electrical Contractors
- Electrical Engineers
- Project Managers
- Other High-Level Electrical Professionals
- People who want to expand their skills into the Solar Power Business

Join us July 6-10, 2010
