

FREE GROUNDING and BONDING

Electrical Seminar

Tuesday, December 6 2016
6:00 pm - 8:00 pm

W Seattle
1112 Fourth Avenue, Seattle, WA 98101

Join us for an Evening Event with Mike Holt

He will cover:

- Preventing Electric Shock
- Grounding versus Ungrounded Systems
- System Grounding versus Equipment Grounding
- Grounding Myths

Learn the most important rules - minimize the risk of electric shock and fire...

Few articles can match Article 250 for misapplication, violation and misinterpretation. This program is unique in its ability to explain grounding, bonding and the difference between them in such a clear and precise way. It will clear up confusing or seemingly conflicting NEC rules, and give tips on proper installations, cautions and warnings of dangers related to improper electrical installations.

Those attending this high-energy program will learn the concepts necessary to understand the grounding and bonding rules in the NEC and how they apply to real-world settings.

Mike Holt is nationally recognized as one of America's most knowledgeable electrical trainers. His signature strength is his ability to communicate technical topics in an easy-to-understand way.

Seating is limited - Register Now!
