

HOW TO RECOGNIZE DINOSAUR DOODOO IN THE ELECTRICAL INDUSTRY

Fun | Educational | Topical

**Join us for the evening
and meet Mike Holt!**

Wednesday, January 25, 2023

Dinner: 5:45 - 6:45 pm

Mike's presentation: 7:00 - 9:00 pm

Ramada by Wyndham Seekonk Providence Area

213 Taunton Ave., Seekonk, MA 02771

(508) 336-8700

Agenda

Technology is changing, codes are changing, and yet older practices (and many electrical myths) still prevail... Mike weighs in on some key topics to help you sort through some things you do, or might see being done, that were valid at one time, but no longer have any value.

- Aluminum Wire Termination
- Bonding Bushings
- Disconnect Placement
- Grounding Metal Poles
- Ground Rods versus Ufer Grounds
- MC Cable Terminations
- Wire Ampacity
- Wire Size to Motors
- Wire Size to A/C Equipment

And more...

Mike Holt has built one of the largest electrical training and publishing companies in the U.S. His one-of-a-kind presentation style and his ability to simplify and clarify technical concepts explain his unique position as one of the premier *Code* experts and educators in the country.

***Register Now, Seating is limited!**

\$60.00/Professionals • \$40.00/Students
