

2011 Detailed Code Library

If you want to really understand the National Electrical Code, this library is for you.

Learn from NEC Expert, Mike Holt, in this best-selling program where he captures all of his knowledge into one systematic training system.

This program is effective because it combines Mike's unique direct writing style along with a series of DVDs in code order that showcase experts from all over the industry in a round table moderated classroom setting. The full-color illustrations in the textbooks have been hailed as "the best in the industry" and show how these rules are applied in the real-world.

Mike's ability to translate the Code into everyday terms has made this program a wonderful tool for individuals wanting to be knowledgeable about the National Electrical Code. For over 30 years Mike has been teaching people how to understand even the most difficult of Code articles, and this program will do the same for you.

Perfect for Engineers, Inspectors, Electricians, Contractors—anyone that needs to know the NEC.

"This is the only way to stay up-to-date with the Code changes. I buy the entire NEC library every Code cycle. Mike is a superb teacher and I love the way the panel members keep him honest!! They have a great rapport and really add great observations from people who work in the trade and must know the Code. If you want to increase your value to your company or organization and become the resident 'Code Expert', Mike's courses give you all the tools to make that goal a reality. Thanks Mike for your contributions to the industry."

Michael C. Knight
