UNDERSTANDING THE NATIONAL ELECTRICAL CODE®

Volume 1

Video Library

LEARN THE CODE

[Articles 90 - 480]

This product is Part 1 of our best-selling Understanding the National Electrical Code® video series. Thousands of Electricians across the US have learned and mastered the rules of the Code in this easy-to-use program. Part 1 covers Articles 90 through 480 as Mike breaks them down with full-color illustrations and clear and easy to understand examples. The focus of this textbook is on the application of the NEC® rules, and it will help you become familiar with the landscape of the Code and how different rules relate to each other.

The videos showcase dynamic panel discussions with Mike and a team of electrical professionals, as they analyze the most essential Code rules, and how they impact your work. The wide range of skills of the panel and their unique perspectives provide a comprehensive overview of the rules and how to apply them in the real-world.

Who should have this product? This program is ideal for everyone in the industry who needs to know the Code, including electricians, contractors, inspectors, instructors, and engineers.

We Make It Easy...

- ☐ **Hundreds of Illustrations.** 1,678 detailed instructional images and graphics display the Code changes in applied scenarios.
- ☐ **Insightful Author's Comment.** Special notes help to provide interpretation and clarification of the rules and highlight their application in the real world.
- ☐ **Practical Examples.** Questions and detailed, step-by-step solutions reinforce your understanding.
- ☐ **Review Questions.** Chapter review questions and two final exams, one in straight order and one random, help you test your knowledge.

“Your creative strategy to simplify the Code makes it understandable for everyone.”

— Alaa S.
