

Mike Holt's ELECTRICAL CONTINUING EDUCATION

Who we are

For over 50 years, Mike Holt Enterprises has been the industry leader in electrical training and continuing education (CEU).

Founded by Mike Holt—master electrician, educator, and author—our mission is to empower electricians with the knowledge, confidence, and skills to succeed in their careers.

Approved across the U.S.

No matter if you hold a single license or multiple state licenses, we've got you covered! Many of our courses are approved nationwide, allowing you to complete just one course and apply the CEUs toward all your licenses.

What we do

We specialize in creating quality electrical training that is easy to understand and gets you the results you need with:

- ✓ Engaging content, expert analysis and real-world applications that make complex topics easy to understand.
- ✓ Video training and hundreds of detailed, full-color instructional graphics.
- ✓ Flexible, self-paced online courses accessible 24/7, that you can take anytime, anywhere, on any device.
- ✓ Modular-style courses with in-page questions that reinforce learning for long-term retention.
- ✓ Support every step of the way—we take the time to understand your needs.

Why Choose Us for CEUs?

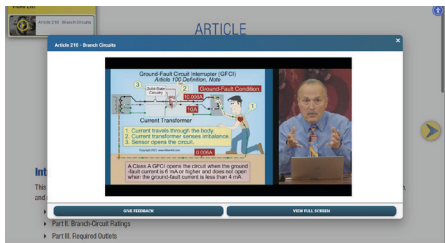

- » **State-Approved CEUs** – We are approved in multiple states with a large selection of courses that meet all your licensing renewal requirements.
- » **Expert Instruction** – Mike Holt and his team of industry leaders bring decades of experience and proven teaching methods.
- » **Trusted by the Industry** – Thousands of electrical professionals, contractors, trade schools, and apprenticeship programs choose us for our clear explanations, engaging teaching style, and easy-to-use learning resources.
- » **Unlimited Certificates** – All CEU online courses include unlimited certificates for your additional licenses that are approved.
- » **Expedited Submissions** – We understand the importance of keeping your license current so, if you're in a crunch, call us and we'll expedite your CEUs to the state at no charge!
- » **Personalized & State-Specific Packages** – Let us put together a personalized course quote that meets your specific needs or sign up for a pre-packaged state bundle that meets all your state requirements.
- » **Lifetime Access** – Completing a course awards you with the option to review your course content anytime you'd like.

Learning Formats

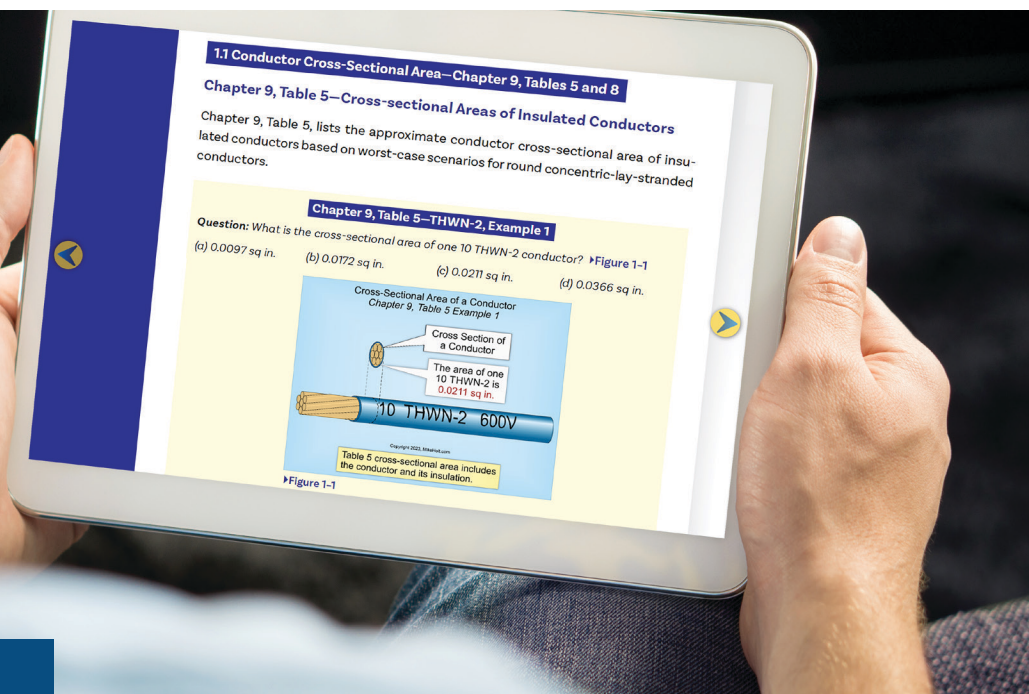

Online Courses

Hundreds of quality graphics, detailed author analysis, in-topic videos, and page-level questions that work together to help you retain what you've learned and immediately apply it in the field.

Live Seminars

Exciting, dynamic in-person seminars that are motivational and educational. A fast-paced environment to network with your industry peers, earn your CEUs, and advance your knowledge.

Course Topics Available

- Code Changes
- Grounding & Bonding
- Solar PV
- Low Voltage
- Electrical Theory
- Electrical Calculations
- Safety
- Business & Estimating
- State Laws & Rules

CE Across License Types

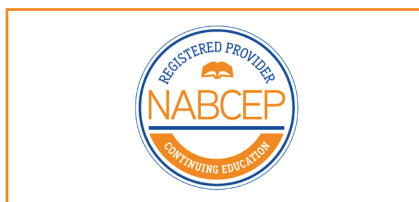

CEUs for the Electrical Trade

Courses for license renewal for journeyman, master, and contractor licenses.

PDHs for Electrical Engineers

Courses to help electrical engineers earn their required professional development hours.

NABCEP Recertification

Courses to meet your NEC-related CE credit requirement for NABCEP re-certification.

ICC Preferred Education Provider

Pre-approved courses for CEUs that count toward maintaining ICC certifications.

ELECTRICAL CONTINUING EDUCATION

at its best...

We are committed to serving this industry with integrity and respect by always searching for the most accurate interpretation of the National Electrical Code® and creating the highest quality material for the Electrical Industry.

We believe that educational products should be easy to use and that technical writing should be easy to read and understand.

We treat our customers as friends we care about, and always go out of our way to make sure we are not just meeting their educational needs, but also addressing their personal concerns at every stage of their educational journey.

We are committed to exceeding our customers' needs and are constantly searching for feedback from every customer and use this information as a guiding force in the development of our service and products.

We are invested in the idea of continuing education, and build our CEU products with the goal of not only helping our customers meet their CEU requirements but also with the goal that it will help them understand the NEC better and in the process improve the safety of electrical installations.

We are committed to building life-long relationships with our customers and in helping them in each stage of their electrical career.

Good luck, and God Bless!

“
Superb service – exceeded my expectations. The company is able to meet all our continuing education requirements, covering multiple states for multiple individuals. Combining a great value with such excellent service is a winning combination! You’ve taken a lot of worry out of managing CEU requirements for multiple individuals.
”

Janet H.

“
I recommend Mike’s CEU courses to all electricians I associate with. Mike’s YouTube videos were instrumental in training and achieving my Master Electrical license. I purchased the Ultimate Library after I earned my license to further tune my skills and knowledge.
”

Patrick P.

“
Mike Holt Enterprises is the total package! I love that we get to hear Mike Holt and others explain code change. Some other programs can seem to drag on, but with MHE you’re engaged the whole learning experience.
”

Andrew A.

Renew your license. Advance your career.
